The New Voice:

The New Voice Pedagogy Marilee David, 2008-03-07 The simple but vital premise behind this important book is that a healthy voice is a beautiful voice and a clear tone and pleasant sound will arise from a healthy vocal technique. Based on the concepts of voice therapy, laryngology and voice science, *The New Voice Pedagogy* presents a no-nonsense look at the ways knowledge gained through modern science can be applied to teaching voice. Marilee David, an experienced teacher and performer, first explains the physiology of the voice, then examines individual aspects of singing such as breathing, mouth position, phrasing, tone quality, pitch, resonance and registration, and offers instruction and exercises appropriate to each component. David also considers the effects of different lifestyle factors and situations on the voice, such as singing with a cold or illness, common medications, obesity, hormones and aging. She describes symptoms and treatments of common voice problems, including hoarseness, laryngitis, types of dysphonias and examples of abuse and misuse, giving an overview of voice therapy and diagnostic tools. An important chapter on ethics, unique to this book, uses case studies to examine ethical questions that arise in the voice studio. New to this second edition are expanded sections on posture and kyphosis, HIV and AIDS, and the aging voice, and a helpful glossary of terms used in voice therapy, laryngology and voice science is included. The bibliography of over three hundred books and articles provides a supplemental reading list for those interested in learning more, and a new final chapter summarizes the pedagogical concepts explored.

The New Voice Amos N.

Wilder, 2013-12-01 In *The New Voice*, Amos Wilder carries forward and combines two areas of activity represented in his earlier groundbreaking publications. One of these is that of the theological critic concerned with modern literature as it illuminates the quests of our age and the vicissitudes of our religious tradition as found in his *Modern Poetry and the Christian Tradition and Theology and Modern Literature*. The other area is that of biblical scholarship, especially in its recent concern with hermeneutics and the modes of language as represented by his volume on early Christian rhetoric, *The Language of the Gospel*. Wilder seeks in the present book to deepen and correct the approach of the theological critic by urging that rhetorical criteria should receive primary attention and that language should be explored in new ways. Wilder therefore examines certain aspects of biblical genre and style as ways of illuminating modern rhetoric and its underlying assumptions. It is a main theme of the work that the disorders and travail of our time should be construed in a positive light and that the most significant writing of the period not only illuminates contemporary reality but fashions a language in which the abiding legacies and archetypes of the past can again be brought to speech. Writers specially discussed in the book range from Musil, Proust, Eliot and Gide to Sartre, Perse, Beckett, Lowell, David, Jones and the exponents of open verse. The work of many others is brought into relation with the task defined by Pound as naming things accurately and by Stevens as making the bread of faithful speech.
