Where Are the Feminine Black Women? Sandra Phillips,2009-02-09 Where Are the Feminine Black Women is a collection of original poems by Sandra Phillips and is based primarily upon her observations as a young woman struggling to survive with body and soul intact under adverse circumstances Upon the deaths of her oldest brothers she became thrust into a leadership role amongst her siblings a role for which she was never prepared In her struggle to see beyond the blinders of naivety poverty and grief she encounters date rape physical abuse and abject poverty It is her hope that this work will inspire other women to look beyond the pain of their present situations to see that they are not alone and that there is light beyond the darkness

**Post-Blackness** Houston A. Baker Jr.,K. Merinda Simmons,2015-02-03 An America in which the color of one's skin no longer matters would be unprecedented With the election of President Barack Obama in 2008 that future suddenly seemed possible Obama's rise reflects a nation of fluid populations and fortunes a society in which a biracial individual could be embraced as a leader by all Yet complicating this vision are shifting demographics rapid redefinitions of race and the instant invention of brands trends and identities that determine how we think about ourselves and the place of others This collection of original essays confronts the premise advanced by black intellectuals that the Obama administration marked the start of a post racial era in the United States While the transcendent and post racial black elite declare victory over America's longstanding codes of racial exclusion and racist violence their evidence relies largely on their own salaries and celebrity These essays strike at the certainty of those who insist that life liberty and the pursuit of happiness are now independent of skin color and race in America They argue signify and testify that post blackness is a problematic mythology masquerading as fact a dangerous new race science motivated by black transcendentalist individualism Through rigorous analysis these essays expose the idea of a post racial nation as a pleasurable entitlement for a black elite enabling them to reject the ethics and urgency of improving the well being of the black majority    Vulture + Nigger Factory Random House,1999-07-01    *Hagar of the Pawn-shop*
