The Life of Nuns Henrike Lähnemann,Eva Schlotheuber,2024-06-21 In the Middle Ages half of those who chose the religious life were women yet historians have overlooked entire generations of educated feisty capable and enterprising nuns condemning them to the dusty silence of the archives What though were their motives for entering a convent and what was their daily routine behind its walls like How did they think live and worship both as individuals and as a community How did they maintain contact with the families and communities they had left behind Henrike L hnemann and Eva Schlotheuber offer readers a vivid insight into the largely unknown lives and work of religious women in the fifteenth and sixteenth centuries Using previously inaccessible personal diaries and letters as well as tapestries painting architecture and music the authors show that the nuns were in fact an active even influential part of medieval society They functioned as role models and engaged in spirited dialogue with other convents with the citizens of their home towns and with the local nobility Full of self confidence they organised their demanding daily lives ran their complex convent economies as successful businesses offered girls a comprehensive theological musical and practical education produced magnificent manuscripts ministered to the convent sick and dying with homemade medicines and to family and friends with advice Initially and fiercely they resisted the Reformation only for some of the convents to survive as Protestant women s foundations to this day Now for the first time in centuries this account by Henrike L hnemann and Eva Schlotheuber allows the voices of these remarkable women to be heard outside the cloister and to invite us into their world

Anglo-Saxon Women and the Church Stephanie Hollis,1992 A fresh look at the position of women in the 8th and 9th centuries as defined by the literature of the early church This study of literature by clerics who were writing to or about Anglo Saxon women in the 8th and early 9th centuries suggests that the position of women had already declined sharply before the Conquest a claim at variance with the traditional scholarly view Stephanie Hollis argues that Pope Gregory s letter to Augustine and Theodore s Penitential implicitly convey the early church s view of women as subordinate to men and maintains that much early church writing reflects conceptions of womanhood that had hardened into established commonplace by the later middle ages To support her argument the author examines the indigenous position of women prior to the conversion of the Anglo Saxons to Christianity and considers reasons for the early church s concessions in respect of women Emblematic of developments in the conversion period the establishment and eventual suppression of abbess ruled double monasteries forms a special focus of this study STEPHANIE HOLLIS is Senior Lecturer in Early English University of Auckland New Zealand
