Issei Baseball Robert K. Fitts, 2020-04-01 Baseball has been called America's true melting pot a game that unites us as a people Issei Baseball is the story of the pioneers of Japanese American baseball Harry Saisho Ken Kitsuse Tom Uyeda Tozan Masko Kiichi Suzuki and others young men who came to the United States to start a new life but found bigotry and discrimination In 1905 they formed a baseball club in Los Angeles and began playing local amateur teams Inspired by the Waseda University baseball team's 1905 visit to the West Coast they became the first Japanese professional baseball club on either side of the Pacific and barnstormed across the American Midwest in 1906 and 1911 Tens of thousands came to see how the minions of the Mikado played the national pastime As they played the Japanese earned the respect of their opponents and fans breaking down racial stereotypes Baseball became a bridge between the two cultures bringing Japanese and Americans together through the shared love of the game Issei Baseball focuses on the small group of men who formed the first professional and semiprofessional Japanese baseball clubs These players' story tells the history of early Japanese American baseball including the placement of Saisho Kitsuse and their families in relocation camps during World War II and the Japanese immigrant experience

The Venture of Islam, Volume 2 Marshall G. S. Hodgson, 2009-05-15 The Venture of Islam has been honored as a magisterial work of the mind since its publication in early 1975 In this three volume study illustrated with charts and maps Hodgson traces and interprets the historical development of Islamic civilization from before the birth of Muhammad to the middle of the twentieth century This work grew out of the famous course on Islamic civilization that Hodgson created and taught for many years at the University of Chicago In the second work of this three volume set Hodgson investigates the establishment of an international Islamic civilization through about 1500 This includes a theoretical discussion of cultural patterning in the Islamic world and the Occident This is a nonpareil work not only because of its command of its subject but also because it demonstrates how ideally history should be written *The New Yorker*

Rethinking World History Marshall G. S. Hodgson, 1993-05-28 Is the history of the modern world the history of Europe writ large Or is it possible to situate the history of modernity as a world historical process apart from its origins in Western Europe In this posthumous collection of essays Marshall G S Hodgson challenges adherents of both Eurocentrism and multiculturalism to rethink the place of Europe in world history He argues that the line that connects Ancient Greeks to the Renaissance to modern times is an optical illusion and that a global and Asia centred history can better locate the European experience in the shared histories of humanity Hodgson then shifts the historical focus and in a parallel move seeks to locate the history of Islamic civilisation in a world historical framework In so doing he concludes that there is but one history global history and that all partial or privileged accounts must necessarily be resituated in a world historical context The book also includes an introduction by the editor Edmund Burke contextualising Hodgson's work in world history and Islamic history
