## The Of Discoveries:

**Focus Of Discoveries, A (Second Edition)** Rudolf P Huebener, Heinz Lubbig, 2012-02-13 On the special occasion of the 125th anniversary in 2012 of the PTB and its predecessor PTR this second edition is presented in CD with a new chapter on the current impact of quantum standards In 1887 the Physikalisch Technische Bundesanstalt PTB was originally founded as the Physikalisch Technische Reichsanstalt PTR in Berlin in order to promote basic research in physics It subsequently developed into the largest research center worldwide as a place where scientists could concentrate exclusively on their research subject and served as a model for similar institutes established in other countries Within a very short time the PTR produced extremely important scientific results that cemented its international position at the top such as Max Planck's radiation law and energy quantization theory as well as Walther Meissner's discovery of the Meissner effect which represented a turning point in the field of superconductivity This book describes the scientific and industrial milieu of the time and explains in detail the role of the key people including Albert Einstein's involvement with the PTR A brief discussion on how the PTR was affected by the Nazi dictatorship in Germany is also given *Indo-Persian Travels in the Age of Discoveries, 1400-1800* Muzaffar Alam, Sanjay Subrahmanyam, 2007-02 A study of Persian travel accounts dealing with India Iran and Central Asia between 1400 and 1800 The Journals of Captain James Cook on his Voyages of Discovery J.C. Beaglehole, 2017-07-05 Captain James Cook's first two voyages of exploration in 1768-71 and 1772-75 had drawn the modern map of the South Pacific Ocean and had opened the door on the discovery of Antarctica These expeditions were the subject of Volumes I and II of Dr J.C. Beaglehole's edition of Cook's Journals The third voyage on which Cook sailed in 1776 was directed to the Northern Hemisphere Its objective was the discovery of a Northern Passage by sea from the Pacific to the Atlantic Ocean the North West Passage sought since the 16th century which would have transformed the pattern of world trade The search was to take Cook into high latitudes where as in the Antarctic his skill in ice navigation was tested Sailing north from Tahiti in 1778 Cook made the first recorded discovery of the Hawaiian Islands On March 7 he sighted the Oregon coast in 44°N The remarkable voyage which he made northward along the Canadian and Alaskan coasts and through Bering Strait to his farthest north in 70° nearly disproved the existence of a navigable passage towards the Atlantic and produced charts of impressive accuracy Returning to Hawaii to refit Cook met his death in a clash with the natives as tragic as it seems unnecessary Dr Beaglehole discusses with sympathy and insight the tensions which led Cook by then a tired man into miscalculations alien to his own nature and habits The volume and vitality of the records both textual and graphic for this voyage surpass those even for Cook's second voyage The surgeons William Anderson and David Samwell both admirable observers left journals which are also here printed in full for the first time The documentation is completed as in the previous volumes by appendixes of documents and correspondence and by reproductions of original drawings and paintings mainly by John Webber the artist of the expedition In Dr Beaglehole's words no one can study attentively the records of Cook's third

and last v *The Neurosciences: Paths of Discovery*, I F. WORDEN, J. SWAZEY, G. ADELMAN, 2012-12-06 To commemorate properly the 70th birthday of a man who by his very nature is too busy to pause for any kind of ceremonial event unless it has a concomitant functional output was a difficult problem for the Staff and Associates of the Neurosciences Research Program Frank F O S has always dreaded the prospect that sometime it might be appropriate for his colleagues to present him a Fest schrift In fact Fest me no Schriften became his battle cry expressing his feeling that the idea of testimonials clustered into a book was anathema So the breakthrough idea for the planners was to organize a symposium around the theme of discovery in neuroscience that would be valuable scientifically and in its demonstration of interdisciplinary interaction would support that emphasis in Frank's career After much planning a program was developed beginning with a birthday party the evening before followed by the two day symposium and closing with the first F O Schmitt Lecture in Neuroscience We hope that publication of the scientific proceedings in this volume will be of interest not only to the neuroscience community but also to a broad general readership interested in discovery under standing and the creative processes in scientific work An organizing committee chaired by Fred Worden collected advice and guidance leading to the selection of speakers whose scientific careers have played an important part in the recent history of modern neuroscience

**Catalogue of the library of the Royal colonial institute. Opinions on the work** James Rufus Boosé, 1896

**Poetry Of Discovery** Andrew Debicki, 2014-07-11 A leading critic of contemporary Spanish poetry examines here the work of ten important poets who came to maturity in the immediate post Civil War period and whose major works appeared between 1956 and 1971 Francisco Brines Eladio Caba ero Angel Crespo Gloria Fuertes Jaime Gil de Biedma Angel Gonz lez Manuel Mantero Claudio Rodr guez Carlos Sahag n and Jos Angel Valente Although each of these poets has developed an individual style their work has certain common characteristics use of the everyday language and images of contemporary Spain development of language codes and intertextual references and most strikingly metaphoric transformations and surprising reversals of the reader's expectations Through such means these poets clearly invite their readers to join them in journeys of poetic discovery Andrew P Debicki's is the first detailed stylistic analysis of this generation of poets and the first to approach their work through the particularly appropriate methods developed in reader response criticism
