activity climate and stress including advice on internal herbal preparations purification treatments Pancha karma and surgical methods shailya Oral administration routes play a major role in influencing individuals Dosha via the ingestion of food spices and medicinal plants These elements are influencing Dosha in different ways stabilizing disturbing and supporting the body s healthy state Detailed knowledge of the action of food spices and medicinal plants is needed in order to understand their potential influence fully Food plays a major role in ayurvedic practice by supporting the body s healing processes Metabolic diseases and diseases of the gastrointestinal tract are directly influenced by food Food can also indirectly affect diseases of the skin muscles and joints as well as a neurological gynaecological and psychological disease
