web power circle diagrams drawn for either sending or receiving ends of a transmission line do not have a common centre for the voltage circles there is also a possibility of confusion over the sign of reactive power when conditions at both ends of the line are estimated by means of separate diagrams

**transmission line estimations by combined power circle diagrams** - Mar 03 2022

web power circle diagrams drawn for either sending or receiving ends of a transmission line do not have a common centre for the voltage circles nor are the power axes within the same semicircle there is also a possibility of confusion over the sign of reactive power when conditions at both ends of the line are estimated by means of separate diagrams a
