**The Humanist-scholastic Debate in the Renaissance & Reformation** Erika Rummel,1995 Erika Rummel delves into the extensive primary sources of the times bringing the issues and their continuing legacy to light and making a valuable contribution to our understanding of the intellectual climate of early modern Europe *The Humanist-Scholastic Debate in the Renaissance and the Reformation* Erika Rummel,2013-10-01 In the last half of the fifteenth century the classic Platonic debate over the respective merits of rhetoric and philosophy was replayed in the debate between humanists and scholastics over philology and dialectic The intense dispute between representatives of the two camps fueled many of the most important intellectual developments of the Renaissance and Reformation Erika Rummel delves into the extensive primary sources of the times bringing the issues and their continuing legacy to light and making a valuable contribution to our understanding of the intellectual climate of early modern Europe Rummel demonstrates how the passionately fought issue of the period changed focus as humanists such as Lorenzo Valla and Desiderius Erasmus applied philological skills to Scripture The controversy over form versus content entered a new phase pitting humanists trained as philologists against scholastic theologians trained as dialecticians Rummel shows us the framework for the debate still intact as the medium message dichotomy and traces its development into quarrels over qualification and entitlement in the academy as theologians and humanists disputed the intellectual and territorial boundaries of their respective disciplines Finally in the first half of the sixteenth century we see the controversy entering the sphere of doctrinal dispute The question of authority became centered not only on professional competence but also on the more explosive issues of faith and Christian teaching This in depth study will reclaim the attention of those who believe these debates were merely personal and episodic Rummel s innovative research provides ample evidence that the polemics of the age arose from a fundamental conflict over methodology and the freedom to pursue research Renaissance Humanism in Support of the Gospel in Luther's Early Correspondence Timothy P. Dost,2001 Seeking to establish the influence of humanism on Luther through a study of his early correspondence c1507-1522 this work explores what effect these humanist ideas and techniques had on his developing religious beliefs Reformation and Scholasticism W. J. van Asselt,Willem Jan van Asselt,Eef Dekker,2001 Thirteen noted scholars look closely at the relationship between the Reformation and Calvinist Scholasticism emphasizing overlooked connections between these two major intellectual movements **Erasmus of Rotterdam Society Yearbook** ,2005 **Debating Women, Politics, and Power in Early Modern Europe** Sharon L. Jansen,2008-03-15 The sixteenth century was an age of politically powerful women Queens acting in their own right and female regents acting on behalf of their male relatives governed much of Western Europe Yet even as women ruled and ruled effectively their right to do so was hotly contested Men s voices have long dominated this debate but the recovery of texts by women now allows their voices long silenced to be heard once again *Debating Women Politics and Power in Early Modern Europe* is a study of texts and textual production in the construction of

gender society and politics in the early modern period Jansen explores the gynecocracy debate and the larger humanist response to the challenge posed by female sovereignty *Renaissance Et Réforme*, 2009 Protestant Scholasticism Carl R. Trueman, R. Scott Clark, 1999 Traditionally Protestant theology between Luther's early reforming career and the dawn of the Enlightenment has been seen in terms of decline and fall into the wastelands of rationalism and scholastic speculation Editors Trueman and Clark challenge this perception in this transatlantic collection of eighteen essays covering Luther and Calvin Early Reformed Orthodoxy the British Connection From High Orthodoxy to Enlightenment and the Rise of Lutheran Orthodoxy **The Front-runner of the Catholic Reformation** Franz Posset, 2003 The Front Runner of the Catholic Reformation looks at the life and work of Johann von Staupitz vicar general of the reformed Augustian friars in Germany and spiritual mentor of Martin Luther It sheds light on the spiritual and theological aspects of the Reformation that Staupitz passed onto Luther and how despite his adherence to Catholicism Staupitz was to have a profound bearing on the course of the Reformation **Scholars of Early Modern Studies**, 1997 Reformed Thought on Freedom Willem J. van Asselt, Willem Jan van Asselt, J. Martin Bac, Roelf T. te Velde, 2010-01-15 This volume examines the concept of human freedom in the work of six early modern Reformers **Jews, Judaism, and the Reformation in Sixteenth-century Germany** Dean Phillip Bell, Stephen G. Burnett, 2006 This volume brings together important research on the reception and representation of Jews and Judaism in late medieval German thought the works of major Reformation era theologians scholars and movements and in popular literature and the visual arts It also explores social intellectual and cultural developments within Judaism and Jewish responses to the Reformation in sixteenth century Germany **HOW TO ACQUIRE BOOKS LISTED IN CURRENT CONTENTS**, 1996 *Philip Melanchthon (1497-1560) and the Commentary* Timothy Wengert, M. Patrick Graham, 1997-10 Philip Melanchthon 1497 1560 and the Commentary celebrates the 500th anniversary of Philip Melanchthon's birth by highlighting one of his most important contributions to the intellectual world of Renaissance and Reformation commentary on ancient texts This book brings together essays not only by recognized connoisseurs of Melanchthon's thought but also by experts on other figures and movements within the Renaissance and Reformation in order to provide a more accurate measure of the man and his distinction from and influence on other thinkers of his day It also investigates both Melanchthon's wrestling with biblical texts and his equally significant exposition of other prominent ancient authors *Holofernes'* Mantuan Lee Piepho, 2001 Mantuan was the most widely read quattrocento writer in England By considering the appropriation and uses made of his poetry this book shows why It breaks new ground by examining how educators like Erasmus mediated versions of his poems that were taught in the schools Professor Piepho uses commentaries and annotated copies to illuminate how habits of reading taught by schoolmasters affected writers such as Robert Burton in his Anatomy of Melancholy Finally he discusses how Mantuan's eclogues appropriated by Protestant polemicists became an allusive background by which Edmund Spenser and other writers examined abuses of the English church This book is essential

reading for all future discussions of the role of humanism in early modern European culture      **New Testament**

**CONTENTS**, 1997      **Vivarium**, 2006      Conciliation and Confession Howard Louthan, Randall C. Zachman, 2004 Religious  
conciliators have always faced resistance and critique as they mediate between groups devoted to ideological agendas that  
leave little room for maneuver and negotiation From the conciliar to the confessional age the normal challenges that  
peacemakers perennially face were magnified The church was divided and there did not appear to be any obvious solution to  
the crisis that had begun in the late fourteenth century with the Great Western Schism 1378 1415 restoration of ecclesial  
unity first in the conciliar era then in the early years of the Protestant reformations and finally during the confessional age  
when the theological and cultural characteristics of competing religious groups began to emerge more clearly Contributors  
to this volume argue that the significance of conciliation efforts has been neglected in part because it has been absorbed into  
discussions of toleration and in part because of the tendency to project contemporary confessional perspectives on the past  
More moderate voices of those working to bridge confessional divides were frequently drowned out by the strident cries of  
their orthodox critics religious conflict was often a conscious intellectual commitment to theological rapprochement  
Throughout special attention is paid to the religiously diverse communities of central and eastern Europe an area that has  
often been overlooked by scholars who have focused more exclusively on Protestant Catholic relations in the western half of  
the continent
