## State Of The Art Fact Finding:

**Fact-Finding before the International Court of Justice** James Gerard Devaney, 2016-09-29 Fact Finding before the International Court of Justice examines a number of significant recent criticisms of the way in which the ICJ deals with facts. The book takes the position that such criticisms are warranted and that the ICJ's current approach to fact finding falls short of adequacy both in cases involving abundant particularly complex or technical facts and in those involving a scarcity of facts. The author skilfully examines how other courts such as the WTO and inter State arbitrations conduct fact finding and makes a number of select proposals for reform enabling the ICJ to address some of the current weaknesses in its approach. The proposals include but are not limited to the development of a power to compel the disclosure of information greater use of provisional measures and a clear strategy for the use of expert evidence. The ^ATransformation of Human Rights Fact-Finding Philip Alston, Sarah Knuckey, 2015-11-23 This book offers a multidisciplinary approach to the study of fact finding including rigorous and critical analysis of the field of practice as well as providing a range of accounts of what actually happens. It aims to deepen the study and practice of human rights investigations and fosters fact finding as a discretely studied topic while mapping crucial transformations in the field. **Encyclopedia of the United Nations and International Agreements: G to M** Edmund Jan Osmańczyk, 2003 This thoroughly revised and updated edition is the most comprehensive and detailed reference ever published on United Nations.
