Stop And Think:

Thoughtless: Think Less, Be More William Sharkey, 2014-05 We as humans experience much stress and suffering yet we aren't really sure why this is so We guess that our stress and suffering comes from a lack of money security loving relationships a difficult childhood lack of religious faith because we suffer from depression or some other sort of chemical deficiency in the brain or a variety of other reasons But there is another explanation We suffer because we think too much We have stress because we are too attached to our thought Thoughtless will show you why thoughts are the reason behind the stress and suffering that is common to almost all humans and how to do something about it how to end it William

illustrates how it is possible to allow joy and inner peace to fill your experience of life by becoming thoughtless **The Executive Function Guidebook** Roberta Strosnider, Valerie Saxton Sharpe, 2019-03-22 Teach some of the most important skills your students will ever need Executive function skills including self regulation focus planning and time management are essential to student success but they must be taught and practiced This unique guidebook provides a flexible seven step model incorporating UDL principles and the use of metacognition for making executive function training part of your classroom routine at any grade level Features include Descriptions of each skill and its impact on learning Examples of instructional steps to assist students as they set goals and work to achieve success Strategies coded by competency and age grade level Authentic snapshots and think about sections Templates for personalized goal setting data collection and success plans Accompanying strategy cards

Risk-Based Thinking Tony Muschara, 2017-11-13 Society at large tends to misunderstand what safety is all about It is not just the absence of harm When nothing bad happens over a period of time how do you know you are safe In reality safety is what you and your people do moment by moment day by day to protect assets from harm and to control the hazards inherent in your operations This is the purpose of risk based thinking the key element of the six building blocks of Human and Organizational Performance H OP Generally H OP provides a risk based approach to managing human performance in operations But specifically risk based thinking enables foresight and flexibility even when surprised to do what is necessary to protect assets from harm but also achieve mission success despite ongoing stresses or shocks to the operation Although you cannot prepare for every adverse scenario you can be ready for almost anything When risk based thinking is integrated into the DNA of an organization's way of doing business people will be ready for most unexpected situations Eventually safety becomes a core value not a priority to be negotiated with others depending on circumstances This book provides a coherent perspective on what executives and line managers within operational environments need to focus on to efficiently and effectively control learn and adapt **Ending the Epidemic of Child**
