## **Specialist In Crime:**

**Criminal Investigation** Peter Stelfox,2013-08-21 Criminal investigation has a high profile in the media and has attracted widespread interest Within the police it has been a rapidly developing field Important scientific and technological developments have had a considerable impact on practice and significant steps have been taken in the direction of professionalizing the whole process of investigation Within police studies criminal investigation has now emerged as an important sub discipline Criminal Investigation provides an authoritative and highly readable introduction to the subject from somebody ideally placed to write about it focusing on how police practitioners carry out investigations It looks systematically at the purpose and role of criminal investigation the legal policy and organizational context in which criminal investigation takes place the evidence and information that criminal investigators seek the process and methods of criminal investigation the knowledge techniques and decision making abilities that practitioners require to carry out criminal investigations how and why it is that some crimes are solved and some are not the supervision of criminal investigation and a review of some of the key contemporary issues that have a bearing on criminal investigation Criminal Investigation will be essential reading for both policing practitioners student police officers as well as officers taking higher levels of CPD within the police service and students taking courses in criminal investigation forensic sciences and investigation police studies and police science and other courses where a knowledge of criminal investigation is required A Specialist in Crime George G. Bolton,1904

**Stop! Armed Police!** Stephen Smith,2017-05-31 Join veteran crime fighter Stephen Smith on a journey through the dark and dangerous world of the Metropolitan Police specialist firearms command from its inception in 1966 when the cold blooded murder of three police officers sparked a revolution in the training of armed officers to the present day This unique police unit battled against the IRA in the 1970s experienced its first operational shootings in the 1980s and underwent massive expansion in the 1990s In the new millenium it fought against Dome raiders kidnappers and al Qaeda terrorists then worked to provide London with a secure environment in which to host the 2012 Olympic Games From a gunman ordering cannabis smuggled in fried chicken during a siege to a deranged killer holding toddlers hostage London s armed police have seen it all With his wealth of first hand experience Stephen Smith has woven together historic and up to date accounts of perilous and often famously controversial firearms operations across England s capital Using hundreds of photographs illustrations and drawings from several archived sources this fascinating volume spans five decades of the Metropolitan Police s fight against crime and many of its photographs and illustrations have never been published before Packed with detail and intrigue Stop Armed Police is a must have for those with an interest in police firearms matters and is a captivating behind the scenes look at the dangerous business of policing London s streets The Elite Leigh Neville,2019-11-28 Using rare and previously unpublished images from around the world The Elite The A Z of Modern Special Operations Forces is the ultimate guide to the secretive world of modern special operations forces This book sends the reader back in time to

operations such as Eagle Claw in Iran and the recapture of the Iranian Embassy in London and then forward to recent operations against al Shabaab and Islamic State Entries also detail units ranging from the New Zealand SAS Group to the Polish GROM and key individuals from Iraq counter terrorism strategist General Stanley McChrystal to Victoria Cross recipient SASR Corporal Mark Donaldson Answering questions such as how much the latest four tube night vision goggles worn by the SEALS in Zero Dark Thirty cost which pistol is most widely employed by special operators around the world and why and if SOF still use HALO jumps this book is the definitive single source guide to the world s elite special forces *The Scottish Police Officer* Daniel Donnelly,2014-05-16 The structure of policing is undergoing change in Scotland at present and the profile of the police officer differs from that of the past This book takes an informative approach and offers a unique account and insight into the Scottish police organisation describing the Scottish police officer from the point of recruitment through to training development and specialist policing Written by an ex senior police officer this book examines how the qualified police officer goes about his her daily work policing and how this has changed over time as a result of organised crime terrorism and the changing priorities of the public and politicians The contribution of non police officers such as police civilian staff auxiliaries and the private sector plays a key role in the policing of Scotland in the 21st century and is considered at length As police supervision and management is crucial to the organisation s success the subjects of personnel development promotion and management in the police is examined with comment on the suitability of the system in the 21st century The book concludes with commentary on the future profile of the Scottish police officer and makes some general comparison with their colleagues in the rest of the UK and European Union This will be an essential text for police officers in Scotland and elsewhere and students and academics in the areas of law politics management police studies criminology and criminal justice Unauthorised tapping into or hacking of mobile communications Great Britain: Parliament: House of Commons: Home Affairs Committee,2011-10-28 The Commons Home Affairs Committee deplores News International s attempt to deliberately thwart the original investigation into phone hacking in 2005 06 but also states that the police set aside a huge amount of material that could have identified other perpetrators and victims The committee agrees with John Yates s own assessment that his 2009 review of this investigation was very poor that he did not ask the right questions and that he was guilty of a serious misjudgement The committee criticises Andy Hayman s cavalier attitude towards his contacts with those in News International who were under investigation which even if entirely above board risked seriously undermining confidence in the impartiality of the police and accuses him of deliberate prevarication in order to mislead the committee It urges the swift and thorough investigation of allegations that payments were made to police officers by the media which will help to establish whether or not such payments may have influenced police inquiries into phone hacking The committee welcomes DAC Sue Akers s decision to contact all potential victims of phone hacking by the News of the World as part of the current investigation but is alarmed that only 170 have as yet been informed At this rate it would take

years to inform all of the several thousands of people potentially affected The committee therefore recommends that extra resources are allocated to her investigation by the Government directly if necessary The committee also expresses concern about both the scope and understanding of current laws on phone hacking with prosecutors and police still arguing over the meaning of relevant sections of the Regulation of Investigatory Powers Act 2000 However this was no reason for the Metropolitan Police to limit their investigation of these matters Finally potential victims of phone hacking should be given a means of seeking formal advice from the Information Commissioner and easier access to redress The Information Commissioner should be given additional powers to deal with breaches of data protection including phone hacking and blagging Mobile phone companies should give greater prominence to security advice in the information provided to their customers The report sets out 24 conclusions and recommendations
