## **Technological Change In China:**

Technological Change in China Richard Conroy,1992      The Endogenous Energy-Saving Technological Change in China's Industrial Sector Xubo He,2022-11-29 As improving energy efficiency and increasing energy R it established a mathematical model for the endogenous energy saving technological advancement of the industrial sector based on heterogeneous R it estimated the energy saving technological progress rate of 37 Chinese industrial sub sectors from 1980 to 2010 fourth it has empirically examined the relationship between the heterogeneous R D investment in China s industrial sector and its energy saving technological advancement rate      *China's Four Modernizations* Richard Baum,2019-03-13 With the death of Mao Tse tung and the subsequent purge of the Gang of Four China s new pragmatic leaders have embarked on a crash program of national development known as the Four Modernizations This program is geared to the primary objective of turning China into a major world economic and military power by the year 2000 In this book the outgrowth of a major international conference on China s post Maoist development ten distinguished analysts examine one of the core issues in China s current modernization drive the acquisition and use of modern industrial science and technology The authors address the politics of China s technological modernization the institutional structure of technological research the purchase of foreign technology constraints on technological absorption the growth potential of China s critical energy sector and the modernization of China s military establishment Supplemented with brief commentaries by leading academic government and private sector contributors their chapters provide an in depth look at the process problems and prospects of China s widely heralded technological revolution      Technological Development, Society And State: Western And Chinese Civilizations In Comparison - Proceedings Of The Joint Conference Welf Heinrich Schnell,Wolfgang Radtke,Hans Poser,W Konig,1991-10-16 This is a collection of essays focused on problems concerning the philosophy of technology the concept of nature the relationships between policy and economic development on the one hand and technological development on the other hand with respect to philosophical principles historical and cultural background both in Western and Chinese Civilization      **Technological Development in China, India and Japan** Erik Baark,Andrew Jamison,1986-06-18      Technological Change, Productivity Growth and Economic Reform in China Bruce L. Jaffee,Cheng Zhong Xiao,1991      *China's Innovation Economy* Jon-Arild Johannessen,2021-09-30 Two trends will have more influence than anything else on the world s future political and economic situation the development of artificial intelligence and the emergence of China as a competitor to the United States on the international stage This book is about the emerging innovation economy It uses systems theory and evolutionary economics as a theoretical point of departure and explains why the focal point of the geopolitical stage is moving away from the alliance between the United States and Europe and towards an alliance between China the 14 Regional Comprehensive Economic Partnership countries the countries along the new silk road and Europe The book argues that the globalization strategy of neoliberalism laid the foundation for the Chinese economic engine Whereas the

old globalization was driven by cost differences generally and wage costs specifically the new globalization is driven by divergence in competence in general and technological competence in particular and China's primary goal is to develop artificial intelligence and intelligent robots Further the book posits that the interactions between the climate crisis and the new technology will change production distribution and the creation of profits both in China and more widely in the global innovation economy The book develops a structure to describe analyze and explain the Chinese innovation economy and contributes to the discussion regarding technological developments in China The book is written for readers who are oriented towards the new globalization that is emerging in the innovation economy and the factors driving China's economic growth

*China's Industrial Technology* Shulin Gu, 2004-01-14 Offering a comprehensive review of reform policy followed by an examination of major approaches to institutional restructuring Shulin Gu explores the way in which China's industrial technology has responded to economic reforms At the heart of the work is the argument that market reform and organisational change are closely interdependent Gu outlines the interaction of the two in China and reveals the damage which may result if market reform is not accompanied by new organisational design Analysis of these issues is drawn from first hand experience of Chinese technology systems supported by insights from technological innovation economics and transaction cost economics

Technology and Industrial Transformation of China Yanqing Jiang, Jiwei Gu, 2022-10-30 This book explores how China's industrial transformation and development depend on technology and innovation and how considerations about issues associated with technology and innovation may affect China's development strategies Market oriented reforms initiated four decades ago have constantly fueled a high speed of development in China The country's industrial structure has experienced rapid evolution In the meantime especially in the general context of globalization the country has also opened to foreign trade and foreign direct investment transforming itself from a virtually completely closed economy into a major trading nation and the largest developing country destination for foreign direct investment in the world Technology is thought to be one of the key driving forces that shape the transformation of the Chinese economy Owing to different speeds of innovation and technology diffusion uneven development is one major issue in the process of China's industrial transformation under new trends of globalization Substantial disparities across different Chinese regions e.g. the gaps in regional industrial development and those in incomes and living standards have been one prominent feature of China and are needless to say closely related to different speeds of innovation and technology diffusion The relationship between technology diffusion innovation and industrial development is an important yet complicated issue that deserves careful study Considerations related to technology and innovation play a crucial role in leading and shaping China's development strategies and routes Sustainable development of China creates strong pressures for continuous transforming upgrading and restructuring of the Chinese economy and in all of these processes innovation and technology diffusion play a fundamental role The book presents to the interested reader facts thoughts models empirical results and discussions that shed light on

those issues     *A Decade of Reform* International Development Research Centre (Canada),1997 Decade of Reform Science and technology policy in China     *China Fast Forward* Bill Dodson,2012-07-25 Will China Surpass the United States as an innovation nation China is tirelessly working to overcome its technological deficiencies by driving R D initiatives in government and business and adapting Western Internet platforms for domestic use It is extending its technological reach through a major drive to rival India as a services outsourcing leader and projecting its high tech brands into the companies and homes of other countries But whether China succeeds will depend on how it handles such issues as demography energy dependency and resource limitations The environmental challenges posed by China s vast manufacturing sector are well documented but what isn t widely realized is that China is actually outstripping the West in all manner of green initiatives renewable energy investments research and development funding and other areas essential to improving the health of the planet However omnipresent government intervention environmental degradation natural resource exhaustion and other issues threaten to derail China s rise to superpower status As the country meets global challenges on a scale that few nations can match China Fast Forward takes a look at what lies ahead and why China s success is important to us all In this book Bill Dodson explores China s reincarnation from a closed agrarian nation into a modern high tech superpower bent on literally cleaning up its act Presents an on the ground survey and analysis of China s renewable and clean energy sector that identifies the kinds of projects and technologies Chinese enterprises and local governments are hungry for Includes a discussion on how successful Chinese companies are developing their brands to go head to head with the world s best known companies Discusses how central government conflicts of interest are actually foiling corporate and official drives to innovation across a range of sectors Taking a look inside China s march toward becoming a sustainable superpower through innovation China Fast Forward presents a balance sheet of the country s technological and social progress on its path to becoming a world leader     **Technology, Politics, And Society In China** Rudi Volti,2019-07-11 This study is the first to summarize the major technological policies implemented in China since 1949 and to place them in their social and historical context Dr Volti looks at technological change in China as part of a broader process of economic political cultural and organizational change focusing primarily on four key areas agriculture energy ground transportation and medicine and public health He emphasizes how technological change has been shaped by political and ideological structures notes how China s unique cultural heritage has affected adoption of technologies developed outside China and assesses China s success in developing technologies appropriate to its specific needs as an economically and politically developing nation He draws on interviews with technicians engaged in the transfer of technology to China as well as extensive primary source materials     *Urban Change in China* David D. Buck,1978     **Science, Technology, and China's Drive for Modernization** Richard P.
