Special Constable A Study Of The Police:

The Special Constabulary Karen Bullock, Andrew Millie, 2017-07-06 Special constables are warranted officers retained within British constabularies Wearing similar uniforms carrying the same personal protective equipment and holding identical powers to enforce the criminal law special constables are to all intents and purposes indistinguishable from their colleagues in the regular police service However very little is documented about the experiences and motivations of special constables the roles they play in contemporary policing or the impact that they have on the police organisation This book draws together academics and practitioners to provide a valuable insight into historical international and contemporary themes pertinent to the historical development and contemporary operation of the special constabulary The book critically considers the origins of the special constabulary and the political social and economic factors which led to its evolution over time It compares and contrasts the organisation functions and status of the special constabulary with other auxiliary forces notably from the United States The book also contributes to theoretical understanding of contemporary policing to debates about the roles and operation of the mixed economy of provision and informs policy and practice in the United Kingdom and beyond

Independent review of police officer and staff remuneration and conditions Tom Winsor, Great Britain Home Office, 2011-03-08 This review began on 1 October 2010 and the reviewer Tom Winsor was asked to ensure that police pay and conditions and the structures around them are the best they could be given the challenges currently facing the police service Budget cuts will see forces being required to achieve more with less but also need to be fair to officers and staff The review is to report in two parts covering short term and long term improvements This is Part one and covers the deployment of officers and staff including shift allowances overtime and assisting other police forces post and performance related pay including special priority payments competence related threshold payments for constables and bonuses at all ranks and how officers leave the police service Mr Winsor says his recommendations will produce savings of 485m over three years The recommendations if implemented will concentrate the highest pay on the front line and more demanding roles in the police service He says police earn 10 to 15% more than other emergency workers and the armed forces and in some areas they are paid up to 60% more than average local earnings It also recommends making savings of 60m a year in overtime and he also suggests suspending chief officer and superintendent bonuses The independent review calls for an end to the 1 212 competence related threshold payment the Special Priority Payment of up to 5 000 and says no officers should move up the pay scale for two years The government is planning to cut its funding for the police by 20% by 2014 15 The 43 forces in England and Wales currently employ about 244 000 people comprising 143 000 police officers and 101 000 civilians

A Special Constable M. L. Gill, R. I. Mawby, 1990 *Understanding Policing and Professional Practice* Barrie Sheldon, Peter Williams, 2025-02-28 This book outlines the foundations for understanding modern policing It is an essential introduction for all policing students and trainee police officers to the underpinning aspects of the profession providing a

clear understanding of how the police service is currently organised and how it fits into the wider criminal justice system. Students are encouraged to think critically and reflect upon core concepts such as policing by consent, police accountability, governance and professional standards, and it examines the challenges of policing an increasingly global, technical and diverse world. The Professional Policing Curriculum in Practice is a new series of books that match the requirements of the new pre-join policing qualifications. The texts reflect modern policing, are up to date and relevant, and grounded in practice. They reflect the challenges faced by new students, linking theory to real-life operational practice while addressing critical thinking and other academic skills needed for degree-level study.

Introduction to Professional Policing Ian Pepper, Ruth McGrath, 2025-06-11. Policing is a dynamic profession with increasing demands and complexities placed upon police officers, staff and volunteers who provide a 24-hour service across a diverse range of communities. Written by experts in policing, higher education from across both academic and professional practice, this book equips aspiring or newly appointed police officers, staff and volunteers with the knowledge and understanding to deal with the significant and often complex challenges they face daily. This second edition of *Introduction to Professional Policing* explores a number of the core underpinning knowledge requirements identified as themes within the ever-evolving National Policing Curriculum (NPC) and Police Constable Entry Routes (PCER), while also informing those embarking on leadership development. These include Community and neighbourhood policing, Counter terrorism, Digital policing, Ethics, equality, diversity and inclusion, Evidence-based policing, Maintaining professional standards, Police leadership, Problem solving and problem-oriented policing, Victims and protecting the vulnerable, Volunteers in policing. This edition has been reviewed and significantly updated in line with the dynamic and ongoing demands faced by operational policing and therefore the associated knowledge requirements for policing education and training. The book is refocused on the learning requirements contained within the range of entry routes now available in policing, as well as the professional development of those serving as police staff and volunteers. This includes new chapters providing insights into community and neighbourhood policing, problem solving and volunteers in policing. At the end of each chapter, the student finds a case study, reflective questions and an extensive reference list, all of which reinforces students' knowledge and furthers their professional development. Written in a clear and direct style, this book supports aspiring police officers, newly appointed police officers, direct entry detectives, community support officers, special constables and police staff. It will also be of interest to those embarking on a leadership journey within policing and anyone wanting to learn more about the profession of policing. It is essential reading for students taking a professional policing degree or commencing any of the police constable entry routes.
