## Small Killing:

**The Shock of the Old** David Edgerton, 2007-01-22 From the books of H G Wells to the press releases of NASA we are awash in clichéd claims about high technology's ability to change the course of history Now in *The Shock of the Old* David Edgerton offers a startling new and fresh way of thinking about the history of technology radically revising our ideas about the interaction of technology and society in the past and in the present He challenges us to view the history of technology in terms of what everyday people have actually used and continue to use rather than just sophisticated inventions Indeed many highly touted technologies from the V 2 rocket to the Concorde jet have been costly failures while many mundane discoveries like corrugated iron become hugely important around the world Edgerton reassesses the significance of such acclaimed inventions as the Pill and information technology and underscores the continued importance of unheralded technology debunking many notions about the implications of the information age A provocative history *The Shock of the Old* provides an entirely new way of looking historically at the relationship between invention and innovation *Infantry*, 1965

**The Use of Force in Humanitarian Intervention** John Janzekovic, 2013-03-28 Humanitarian intervention is a many layered and complex concept While moral society has an obligation to stop deliberate and persistent serious human rights abuse the direct use of force remains a contentious option alongside other strategies employed by the international community This study analyzes the various ethical positions particularly consequentialism welfare utilitarianism and just war theory to unravel this intricate topic Uniquely the book goes beyond previous philosophical or ethical treatments of the subject to provide a more rounded and practical reflection on the lessons learned from the revival of humanitarian intervention as a tool of conflict resolution

*THE HALFWAY POINT AND THE SWORDS OF FATE* Josh Campbell, 2013-02-15 Our world waits for the light to glisten through our dominion Then the Swords Of Fate will be revealed The chosen have claimed their swords to terminate evil and rid the horrors of the Overlords reign We need a hero to rise out of the darkness of the world and let the gleam of raw power evaporate evil where it lurks in the cold shadows Young Shain Rook and Matt Williams begin to dream the same dream every Friday night and it awakes them at 4 a m This dream leads them to a set of swords that will change everything they know The two boys are transported to the dimension of Emis and must find their way home Little do they know that Fate brought them there because they are the high chosen ones

**The Killing Game** Mark Bourrie, 2016-03-08 On January 21 2015 a pro ISIS Twitter account reported that John Maguire a 23 year old university drop out from the Ottawa Valley town of Kemptonville had been killed fighting Kurds in the Syrian city of Kobani A few weeks before Maguire had starred in a YouTube video threatening Canada for bombing ISIS forces in Iraq He is one of the dozens of young Canadians who have chosen to fight in a vicious conflict that really had little to do with them and with Canada Why would young people choose to fight in other people's wars especially one as bloody and cruel as this one Why has ISIS become so good at attracting foreign fighters This book examines the lure of this radical Islamist movement its religious beliefs sophisticated propaganda and vast

social media networks ISIS is now a go to cause for alienated young people in the Islamic World and the West Does it offer answers to troubled young people Are ISIS s crimes slavery murder rape repression and the destruction of heritage sites an attraction in and of themselves What do we do about the people who take up ISIS s cause but stay in their home country What do we do with the ISIS recruits who come home The Killing Game examines what draws young men and women to join violent social political movements It looks at the psychology of young men and women today and the propaganda used by all sides in the Middle East conflicts as well as the security laws and the political initiatives that have been designed to stop Canadians from being radicalized From the irresistible lure of Marxist Leninism of the 1930s through the 60s and 70s and including the appeal of Nazism to young Germans in the 1930s this book also investigates what it is that draws young people to join and fight for causes as different as the Spanish Civil War of the 1930s and the Red Brigades of the 1970s but with an emphasis on the attraction of ISIS and radical Islam in our own time
