*Identity, Social Class and Learning in the 'Bottom' Reading Group* Jess Anderson,2025-02-28 The common practice of ability grouped reading in UK schools often termed guided reading influences children's sense of identity feelings and progress as readers Drawing on a rich ethnographic study of three primary classrooms this book reopens a critical inquiry into ability grouped reading that has been quiet since the 1990s when guided reading in literacy education became established practice in the UK and the US Through the lens of children's agency in accommodating resisting and at times transforming such reading pedagogy the book shows how readers are shaped by ability grouped reading and by the more egalitarian reading pedagogies introduced in the study Children's individual and collective experiences are brought to life through extended narratives that attend as closely to gesture posture visage silences and prosody of speech as to spoken words The book ends with a provocation how literacy pedagogy might change if reflexive noticing and dismantling of hierarchies become the compass of pedagogical change This demands attention to structural

inequalities around race gender and class and a turn towards deep listening to children As well as being a valuable read for scholars of the sociology of childhood and education it should appeal to anyone concerned with making education more equitable including teachers school leaders parents carers and policymakers *International Journal of Religious Education* ,1939

*Japanese Moral Education Past and Present* Yoshimitsu Khan,1997 This book investigates the history and development of Japanese moral education and analyzes and compares current moral education with the concepts of the Imperial Rescript on Education 1890 and the shushin moral education of prewar Japan The Rescript contains Confucian and Shinto precepts and was to become the codification of the moral standards of the Japanese way of life in pre surrender Japan Despite the attempts of the Japanese education system to embrace democratic principles postwar dotoku moral education has been essentially the same as that of the prewar system The author concludes that Confucian ethics is still the engine of Japanese social cohesion and dynamics and predicts that it will continue to be so for generations to come Japan needs to find a way to converge the long held Confucian ideology with more democratic ideals and fairness to all people through moral education

**Designing Critical Literacy Education through Critical Discourse Analysis** Rebecca Rogers,Melissa Mosley Wetzel,2013-06-26 Uniquely bringing together discourse analysis critical literacy and teacher research this book invites teacher educators literacy researchers and discourse analysts to consider how discourse analysis can be used to foster critical literacy education It is both a guide for conducting critical discourse analysis and a look at how the authors alongside their teacher education students used the tools of discourse analysis to inquire into critique and design critical literacy practices Through an intimate look at the workings of a university teacher education course and the discourse analysis tools that teacher researchers use to understand their classrooms the book provides examples of both pre service teachers and teacher educators becoming critically literate The context rich examples highlight the ways in which discourse analysis aids teachers decision making in the moment and reflections on their practice over time Readers learn to conduct discourse analysis as they read about critical literacy practices at the university level Designed to be interactive each chapter features step by step procedures for conducting each kind of discourse analysis narrative critically oriented multimodal sample analyses and additional readings and resources By attending to the micro interactions as well as processes that unfold across time the book illustrates the power and potential of discourse analysis as a pedagogical and research tool
