**Teach Students How to Learn** Saundra Yancy McGuire, 2023-07-03 Co-published with NISOD. Miriam a freshman Calculus student at Louisiana State University made 37.5% on her first exam but 83% and 93% on the next two. Matt a first year General Chemistry student at the University of Utah scored 65% and 55% on his first two exams and 95% on his third. These are representative of thousands of students who decisively improved their grades by acting on the advice described in this book. What is preventing your students from performing according to expectations? Saundra McGuire offers a simple but profound answer. If you teach students how to learn and give them simple, straightforward strategies to use, they can significantly increase their learning.

and performance For over a decade Saundra McGuire has been acclaimed for her presentations and workshops on metacognition and student learning because the tools and strategies she shares have enabled faculty to facilitate dramatic improvements in student learning and success This book encapsulates the model and ideas she has developed in the past fifteen years ideas that are being adopted by an increasing number of faculty with considerable effect The methods she proposes do not require restructuring courses or an inordinate amount of time to teach They can often be accomplished in a single session transforming students from memorizers and regurgitators to students who begin to think critically and take responsibility for their own learning Saundra McGuire takes the reader sequentially through the ideas and strategies that students need to understand and implement First she demonstrates how introducing students to metacognition and Bloom's Taxonomy reveals to them the importance of understanding how they learn and provides the lens through which they can view learning activities and measure their intellectual growth Next she presents a specific study system that can quickly empower students to maximize their learning Then she addresses the importance of dealing with emotion attitudes and motivation by suggesting ways to change students' mindsets about ability and by providing a range of strategies to boost motivation and learning finally she offers guidance to faculty on partnering with campus learning centers She pays particular attention to academically unprepared students noting that the strategies she offers for this particular population are equally beneficial for all students While stressing that there are many ways to teach effectively and that readers can be flexible in picking and choosing among the strategies she presents Saundra McGuire offers the reader a step by step process for delivering the key messages of the book to students in as little as 50 minutes Free online supplements provide three slide sets and a sample video lecture This book is written primarily for faculty but will be equally useful for TAs tutors and learning center professionals For readers with no background in education or cognitive psychology the book avoids jargon and esoteric theory

**The Educational reporter (and science teachers' review).** ,1869      **Early and Unpublished Writings of Christopher Alexander** Howard Davis,2022-08-17 This book brings together key works of the noted architect and architectural theorist Christopher Alexander 1936 2022 many of which have not been published before The book contains twenty five essays and other works many chosen from the newly organized Christopher Alexander archive providing a window into the ideas and thought process of one of the most innovative architectural thinkers of the twentieth century The items span Alexander's fifty year career beginning with an early version of his PhD dissertation based on fieldwork in India continuing to fifteen years in the development of A Pattern Language one of the best selling books in the history of architecture and proceeding to the writing of The Nature of Order Alexander's four volume masterwork and beyond The writings combine theory and descriptions of practice and together support a blueprint for the development of a new humane way of building while also providing a window into the mind of an extraordinary thinker teacher and professional
