chronicling the pivotal choices and hard-earned wisdom that went into building a restaurant chain from the ground up. This thrilling story touches all corners of the restaurant industry from Rypka's rock-bottom teenage years working his first job as a fry cook to country clubs and corporate kitchens to the recent unprecedented challenge of expanding his business during the coronavirus pandemic. Food and Museums Nina Levent, Irina D. Mihalache, 2016-11-03. Museums of all kinds, art history, culture, science centers and heritage sites are actively engaging with food through exhibitions, collections and stories about food production, consumption, history, taste and aesthetics. Food also plays a central role in their food courts, restaurants, cafes, gardens and gift shops. *Food and Museums* is the first book to explore the diverse, complex relationship between museums and food. This edited collection features theoretical analysis from cultural historians, anthropologists, neuroscientists and food studies scholars, interviews with museum professionals, artists and chefs, and critical case studies from a wide range of cultural institutions and museums to establish an interdisciplinary framework for the analysis of the role of food in museums. Exploring the richness and complexity of sensory, cultural, social and political significance of food today as well as in the past, the book demonstrates how food is changing the current museological landscape. A fascinating look at contemporary museums through the lens of food, this is an essential read for students and researchers in museum studies, food studies, cultural studies and sensory studies, as well as museum and food professionals.
