## **The Peters World Atlas:**

*The Peters World Atlas* Arno Peters,2002 Finally correcting many long standing misconceptions about the geography of our own planet the Peters World Atlas presents one sixtieth of the Earth s surface as an astronaut s eye view on each double page spread Its unique use of colour and relief is intuitive so jungles are green deserts are brown and mountains appear to bulge out of the page In addition to this 246 thematic maps explore such topics as nature society global rainfall birth control marriage weather status of women employment and military strength among others In full colour [The World Atlas of Trees and Forests](#) Herman Shugart,Peter White,Sassan Saatchi,Jérôme Chave,2022-09-20 A marvelously illustrated look at the world s diverse forests and their ecosystems The earth s forests are havens of nature supporting a diversity of life Shaped by climate and geography these vast and dynamic wooded spaces offer unique ecosystems that shelter complex and interdependent webs of flora fungi and animals The World Atlas of Trees and Forests offers a beautiful introduction to what forests are how they work how they grow and how we map assess and conserve them Provides the most wide ranging coverage of the world s forests availableTakes readers beneath the breathtaking variety of wooded canopies that span the globeProfiles a wealth of tree species with enlightening and entertaining natural history highlights along the wayFeatures stunning color photos maps and graphicsDraws on the latest cutting edge research and technology including satellite imagery [Peters World Atlas](#) Peters Arno,2010-08-10 Provides physical political and human and economic geography maps of the world in correct surface area proportion and includes maps covering such subjects as nutrition demography energy use and health [Third World Atlas](#) Alan Thomas,Ben Crow,2020-07-26 This book focuses on some of the Third World s common experiences such as its historical linkages with the West the challenge to provide basic needs and the effects of competition in the global economy It will be useful in bringing a spatial and statistical dimension to the study of development

[Peters World Atlas](#) ,2010 Peters Projection the type of cartographic representation on which the atlas is based was introduced in 1973 It is a method of depicting the world on paper that accurately represents the surface of the globe while maintaining the relative proportions of three dimensions In other words countries with the same area are of equal size on a Peters map [Rhumb Lines and Map Wars](#) Mark Monmonier,2010-11-15 In Rhumb Lines and Map Wars Mark Monmonier offers an insightful richly illustrated account of the controversies surrounding Flemish cartographer Gerard Mercator s legacy He takes us back to 1569 when Mercator announced a clever method of portraying the earth on a flat surface creating the first projection to take into account the earth s roundness As Monmonier shows mariners benefited most from Mercator s projection which allowed for easy navigation of the high seas with rhumb lines clear cut routes with a constant compass bearing for true direction But the projection s popularity among nineteenth century sailors led to its overuse often in inappropriate non navigational ways for wall maps world atlases and geopolitical propaganda Because it distorts the proportionate size of countries the Mercator map was criticized for inflating Europe and North America in a

promotion of colonialism In 1974 German historian Arno Peters proffered his own map on which countries were ostensibly drawn in true proportion to one another In the ensuing map wars of the 1970s and 1980s these dueling projections vied for public support with varying degrees of success Widely acclaimed for his accessible intelligent books on maps and mapping Monmonier here examines the uses and limitations of one of cartography's most significant innovations With informed skepticism he offers insightful interpretations of why well intentioned clerics and development advocates rallied around the Peters projection which flagrantly distorted the shape of Third World nations why journalists covering the controversy ignored alternative world maps and other key issues and how a few postmodern writers defended the Peters worldview with a self serving overstatement of the power of maps Rhumb Lines and Map Wars is vintage Monmonier historically rich beautifully written and fully engaged with the issues of our time [Hammond New Century World Atlas](#) Hammond

Incorporated,1996 New Century World Atlas Edition combines dramatic color It also contains detailed thematic maps for each continent covering topography population land use and mineral resources The informative world flag and reference guide includes useful facts on all the nations of the world from its population figures to its highest point There are also thematic spreads on global issues including environmental concerns population trends languages and religions Last but not least there is also an easy to use 45 000 entry Master Index [Maps and Politics](#) Jeremy Black,2000-09-01 We all rely on the apparent accuracy and objectivity of maps but often do not see the very process of mapping as political Are the power and purpose of maps inherently political Maps and Politics addresses this important question and seeks to emphasize that the apparent objectivity of the map making and map using process cannot be divorced from aspects of the politics of representation Maps have played and continue to play a major role in both international and domestic politics They show how visual geographical representations can be made to reflect and advance political agendas in powerful ways The major developments in this field over the last century are responses both to cartographic progression and to a greater emphasis on graphic imagery in societies affected by politicization democratization and consumer and cultural shifts Jeremy Black asks whether bias free cartography is possible and demonstrates that maps are not straightforward visual texts but contain political and politicizing subtexts that need to be read with care [The World Map Directory 1990-91](#) Map Link
