Architectural Possibilities in the Work of Eisenman Michael Jasper, 2022-11-11 This book examines the central decades of Peter Eisenman's work through a formal and thematic analysis of key architectural projects and writings revealing underlying characteristics and arguing for their productive continuity and transformative role. The book explores Eisenman's approach to architectural form generation and thinking. It does this through a thematic and formal analysis of projects and writings from the mid 1970s to the mid 1990s. Following an introductory chapter addressing the theme of potentialities, the book is organised in two parts. The first part focuses on key period writings of Eisenman framing the close reading around a practice of resistance, the architect's approach to history as analysis and the transformative conceptualisation of time. In the second part, the book undertakes an analysis of select projects from the 1980s and 1990s. Three formal preoccupations and conceptual orientations ground manipulations, figuration and spatial events. This part of the book previously unpublished material from the Peter Eisenman fonds. Canadian Centre for Architecture. Montréal provides primary source material. A concluding chapter addresses Eisenman's teaching, its relation to his larger project and possible legacies for educators, practitioners, scholars and theorists.

**The French Revolution and What Went Wrong** Stephen Clarke, 2018-05-03 An entertaining and eye-opening look at the French Revolution by Stephen Clarke, author of 1000 Years of Annoying the French and A Year in the Merde. The French Revolution and What Went Wrong looks back at the French Revolution and how it's surrounded in a myth. In 1789, almost no one in France wanted to oust the king, let alone guillotine him. But things quickly escalated until there was no turning back. The French Revolution and What Went Wrong looks at what went wrong and why France would be better off if they had kept their monarchy.

**Becoming China's Bitch** Peter D. Kiernan, 2012-02-14 In *Becoming China's Bitch*, Peter D. Kiernan presents an unflinching manifesto in which he explores five factors that keep us frozen. He then uncovers the ten challenges that pose the greatest threat to our future. Presented from a fresh yet informative perspective, these ten impending catastrophes include our semiconscious dependency on China, our lack of a coordinated intelligence effort, our downward spiraling health care and education systems, our missing in action energy policy, and the continually expanding problem of illegal immigration. In a logical, personal and persuasive voice, Kiernan then offers radical yet practical solutions that every American must acknowledge and act upon before it's too late.
