important post 9 11 materials For example useful background information on U S actions against Osama bin Laden the Taliban and Saddam Hussein and terrorism fundraising Also included are statements from the Reagan and other administrations that relate to disputes over the appropriate use of force Introductory chapters by Alexander and Kraft provide the historical context and analysis of previous and current U S counterterrorism policy including U S legislation For over two centuries America has faced occasional outbreaks of terrorism perpetrated by both indigenous and foreign groups But the spectacular bombing in Oklahoma City in 1995 and the September 11 2001 attacks seemed to signify a new age frightening many Americans and destroying their sense of domestic security In addition U S citizens and interests have been increasingly affected by acts of terrorism abroad The challenges of terrorism therefore have required the United States to develop comprehensive strategies and programs to counter both conventional and unconventional threats nationally and globally

Analysing the Use of Social Media by ISIS* Lisa Wiechert, 2017-06-02 Social media has played a central role in the digital era for almost a century influencing almost all aspects of life The use of social media in warfare is threatening not only one country but the whole global community is a recent development The famous speech by Abu Muhammad al Adnani on social media inspired the bloody month of Ramadan in 2016 and showed the deadly power of social media inspired attacks and what the Islamic State is capable of achieving Although the terrorist group has lost territory over the last few weeks of combat both in Syria and Iraq and is on the edge of losing their main capital Mosul IS still remains a hybrid threat Consisting of military powers and an unmatched affinity of using social media as a cyber war weapon IS will continue to be a severe danger to the global community This book aims to foster a deeper understanding of the use of social media for recruiting efforts by the so called Islamic State IS and to analyse its propaganda methods in order to develop possible countermeasures A special focus will be put on the method of recruitment of young Western foreign fighters These individuals are the easiest to recruit for ISIS and pose the greatest risk to the global community especially in regards to home grown terrorism and so called lone wolf attacks Since this area of research is very new and quickly evolving the field still needs extensive research It is difficult to analyse the use of social media content by the Islamic State due to limited information access and flow encryption propaganda verification and inconsistency The Islamic State is a military threat on the battlefield as well as a potential cyber threat for the international community Despite these challenging circumstances this book will provide a new theoretical model based on the marketing model of a customer journey in connection with the main principles of storytelling Ultimately this research work will try to provide experts with a new and modern approach of analysis as a base for possible counter measures to weaken and combat the current threat posed by the Islamic State From the text Islamic State Terrorism Social Media Propaganda Institutions Radicalisation
