*A Systematic Approach to Complex System Design: An Application to Printed Circuit Board Test System Design* Pei-ti Tung, ALFRED P SLOAN SCHOOL OF MANAGEMENT CAMBRIDGE MA CENTER FOR INFORMATION SYSTEMS RESEARCH., 1980 The Systematic Design Methodology SDM is a set of concepts and techniques currently under development at MIT Center for Information Systems Research CISR The SDM is oriented toward assisting software designers or design teams in the task of structuring the

architecture the preliminary design for a complex system Essential to the methodology development is the testing of the methodology The most promising but also the most challenging testing alternative is to test the methodology against real world design problems This thesis involves testing the methodology in a real world context where real system designers participate in applying the methodology to their design problem at hand The application system is the test program preparation software of printed circuit board functional test system currently under development Included in this report is a description of the process by which SDM was applied and an analysis of the results obtained Insights and experiences gained in the use of the methodology are discussed throughout
