## **Texas Challenge:**

The New Texas Challenge Steve H. Murdock, 2003 What will the future of Texas be Will its population continue to increase and if so how rapidly and where will this growth be most extensive Will its wealth increase with its population or will per capita levels of income and wealth decrease What are the opportunities and challenges state government is likely to face in the first decades of the twenty first century A team led by State Demographer Steve H Murdock examines these questions using new figures gathered in the decennial national census of 2000 From their analysis they are able to examine the effects of four major demographic trends that continue markedly to affect Texas and other parts of the nation The New Texas Challenge explores changes in the rates and sources of population growth the aging and age structure of the population growth in the non Anglo population the changing composition of Texas households The intent is both to provide an overview of how far Texas has come and to suggest where it may be going under conditions prevailing in the first years of this century

Finding Her in History Rosemary Papa, 2017-06-16 This monograph was cultivated from the AERA SIG Women in Education 2016 address and delivers a brief review of his story in terms of the lack of her story being included through three parallel lines 1 historical documents on formation of the family and work in and outside the home from the Paleolithic era 2 the development of traditional religions and the subjugation of women beginning with the conniving seductress Eve and 3 the discussion of major wars and the nation state policies produced throughout history with impacts on girls and women as well the precarious health of the planet This brief review of his story reveals the continued exclusion of her story with the example of Willystine Goodsell a historian ironically erased from history in education The premise that subjugation of women and children as lesser than males has been supported both in the name of protecting them and in shaming them The combined ubiquitous effects of disequilibrium created by mankind in wars religions education social capital economics and politics have ensured his story is the one recorded This monograph suggests a more balanced approach to the written her his story requires inclusion of all the population and the secular educating of especially girls and women

**Rainbow Rights** Patricia Cain, 2018-02-20 This book describes the substantive state of the law with regard to lesbian and gay rights It begins with some background information to put the modern fight for lesbian and gay rights in its

proper historical context then categorizes lesbian and gay rights claims into three areas individual rights in private contexts individual rights in public contexts and couple or family rights thought of as private but pushing into the public sphere that add up to a single principle the right to be human in a modern society Arguing against the popular misconception that the Lesbian and Gay Rights Movement began with Stonewall in 1969 Patricia Cain shows that the first gay rights organization in the United States was formed in 1924 in Chicago From the Mattachine Society in Los Angeles and the Daughters of Bilitis in San Francisco to the formation of the Society for Individual Rights SIR in 1964 the book examines the ways that these early organizations although different from today s gay rights groups served as important contributions to the modern fight for lesbian and gay legal rights The author looks at how the most important cases of the 1950s and 1960s the political battles over keeping gay and lesbian bars open and the fight by government employees to keep their jobs during the governmental purge of suspected homosexuals along with suspected communists during the McCarthy era have helped to shape the state of the law today By exploring the background key cases and important issues yet to be resolved Rainbow Rights translates the legal claims and arguments into accessible language and concepts which will be of interest not only to lawyers and law students but also to persons not trained in the law [Challenge](#) ,1991 [Demographics](#) Steven H.
