Kidplaces Mesa Somer, 1995 *Beauty is in the Street* Joachim C. Häberlen, 2023-10-05 A rich and readable account of left wing activism in the West and opposition to Soviet style communism in the East. Katja Hoyer *The Spectator* A dream perhaps but one that still sounds worth fighting for even beautiful Stuart Jeffries *The Observer* An ambitious and masterly account of utopian protest in Europe. Fast paced with an eye for telling detail and written with a light touch. Robert Gildea *In post war Europe protest was everywhere* On both sides of the Iron Curtain from Paris to Prague, Milan to Wroclaw ordinary people took to the streets fighting for a better world. Their efforts came to a head most dramatically in 1968 and 1989 when mass movements swept Europe and rewrote its history. In the decades between Joachim C. Häberlen argues new movements emerged that transformed the nature of protesting. Activism moved beyond traditional demonstrations from squatting to staging happenings and camping out at nuclear power plants. People protested in the way they dressed, the music they listened to, the lovers they slept with, the clubs where they danced all night. New movements were born, notably anti racism, women's liberation, gay liberation and environmentalism. And protest turned inward as activists experimented with new ways

of living and feeling from communes to group therapy in their efforts to live a better life in the here and now. Some of these struggles succeeded others failed. But successful or not their history provides a glimpse into roads not taken into futures that did not happen. The stories in H. berlen's book invite us to imagine different futures to struggle to fail and to try again. In a time when we are told that there are no alternatives they show us that there could be another way.
