**Mental Processes and Narrative Possibilities in the German Novelle, 1890-1940** David Turner, 2005 Although it concentrates on a particular historical period and although it examines a variety of individual works many of them acknowledged Novellen this study is neither an historical survey nor a collection of interpretations Its distinctive approach is taxonomical and comparative Taking as its starting point the surge of interest in the human mind as the nineteenth century drew to a close it examines the kinds of shorter narrative that were generated by that interest On the other hand therefore it investigates how by focusing on particular aspects of the mind writers were led to adopt certain narrative patterns or structures and on the other hand building on the work of Dorrit Cohn but extending her range considerably it explores and evaluates the different modes of presentation which writers exploited as they sought to give life to the inner workings of their characters According to some psychology and the Novelle are incompatible Although the investigation concludes that there is no inherent incompatibility between psychological interest and the aims of the Novelle it also demonstrates that psychological interest in shorter narratives does not always lead to Novellen it explores other narrative structures that may arise when particular models of the mind form their basis

**Childhood and Children in Thomas Mann's Fiction** G. Peter McMullin, 2002 An examination of all the child characters in Thomas Mann's fiction from Der kleine Herr Friedemann to Bekenntnisse des Hochstaplers Felix Krull By the use of textual analysis it demonstrates that Mann had an exceptional if not unique gift for the portrayal of children and that his depiction evinces deep sympathy with children in general and especially children of a certain type Most but not all of the children are delicate sensitive and gifted creatures and they are also sexless or at least androgynous The work also briefly examines previous scholarly writings on the subject and compares Mann's treatment of children with that of previous German writers

Approaches to Comedy in German Drama Gillian Pye, 2002 The aim of this book is to adopt a holistic method in order to explore the question of comedy as narrative and dramatic structure in a selection of contemporary German language dramas This book also seeks to suggest some of the ways in which comedy does in fact have a significant role to play in the German theatre of the late 20th twentieth century

**An Introduction to the Major Works of Franz Grillparzer, 1791-1872, German Dramatist and Poet** Ian Frank Roe, 1991 This work provides a general survey with the main emphasis on the thematic and dramatic content of the plays genesis and background structure characters major themes as well as questions of language style and imagery especially where these contribute to the play's theatrical effectiveness This work's most important contribution to scholarship is the investigation of Grillparzer's interest in the Classical generation of writers reflected in almost all his works

either in the form of a debt to a particular work or in the echoing of key philosophical themes of the period Grillparzer's mature works reveal an interest in high ideals on the one hand and a recognition of the demands of everyday reality on the other while the formal precision of Classical drama is enriched by a theatrical immediacy in keeping with Viennese traditions This combination reflects the conflicts in Grillparzer's own personality and results in a considerable degree of ambiguity in the presentation of characters and themes but it is precisely such a rejection of easy solutions in his works that ensures their relevance for a modern audience
