perspective has come to dominate the administrative and managerial discourse on cultural valuation for a few decades This has resulted in a predominance of an approach to valuing culture that is expressed exclusively in terms of its economic impact obscuring other values of culture The European research project UNCHARTED has tried to counteract this predominance by providing a broader vision of the societal value of culture in the European context and by applying this alternative view to some of the most relevant areas in which cultural valuation impinges on cultural management and cultural policy today This book presents its main results Based on a pragmatist perspective we have carried out an extensive multiple case study 65 cases in seven countries that considers the multiplicity of agents who participate in cultural valuation processes citizens professionals of creation and preservation experts and politicians and the diversity of evaluative practices in which they engage within three main areas the field of cultural participation the field of cultural production and heritage and the field of cultural administration The book shows the irreducible plurality of the values of culture the characteristic complexity of the dynamics of valuation and evaluation in the cultural sphere and the current shortcomings and possible improvements in institutional processes of cultural evaluation It is essential reading for cultural professionals policymakers and scholars of culture *Geopolitics and Identity in British Foreign Policy Discourse* Nick Whittaker, 2023-07-27 This is the first book to examine Britain's geopolitical identity and how it is expressed in foreign policy discourse It demonstrates how British imperial thought related to its island status has remained important for British Members of Parliament in their debates of contemporary issues It presents an exciting and provocative new reading of modern British foreign policy that decentres traditional notions of rationalism and pragmatism by foregrounding the much neglected aspects of identity and geopolitical space As British foreign policy makers wrestle with how to define Britishness outside of the EU this analysis provides a fresh perspective It presents a much needed historical contextualisation of long standing concepts such as insularity from Europe and a universal aspect on world affairs This book will be highly relevant for students researchers and professionals that are seeking to understand British foreign policy It will be of interest to those researching and working within geopolitics identity sociology foreign policy analysis and international relations Theorising the Popular Michael Brennan, Jacqui Miller, 2017-05-11 While chiefly a site of popular pleasure and merriment popular culture also offers a profound sense of meaning making where it functions as a site and source through which identities are inhabited brokered and contested As a significant domain within contemporary society popular culture is both shaped by and has the capacity to shape developments occurring at the wider social cultural and political levels of human life Taking popular culture seriously as an arena of everyday life that has merit in its own right the contributors to this wide ranging collection of essays offer unique insight into various elements of contemporary popular culture Drawn from across the humanities and social sciences as well as the performing arts and creative industries this volume offers theoretical reflections on the significance of particular elements of popular culture from the performative effects of interactive and immersive theatre through

developments in the shifting cultural landscape of a post television age to contemporary popular literature of various sorts and its basis for identity and fandom Above all else what these essays demonstrate is the radically porous nature of popular culture and the ways in which it continually defies attempts at neat categorisation by transcending traditional boundaries and genres *National Union Catalog, 1981 ,1982* **Contemporary Authors** ,1974
