Social Anthropology Of North American Tr:

Social Anthropology of North American Tribes Fred Eggan, Ina Corinne Brown, 1937 ESSAYS IN SOCIAL ORGANIZATION LAW AND RELIGION WITH AN EMPHASIS ON KINSHIP [North American Indian Anthropology](#) Raymond J. DeMallie, Alfonso Ortiz, 1994 These essays explore the blending of structural and historical approaches to American Indian anthropology that characterizes the perspective developed by the late Fred Eggan and his students at the University of Chicago. They include studies of kinship and social organization, politics, religion, law, ethnicity, and art. Many reflect Eggan's method of controlled comparison, a tool for reconstructing social and cultural change over time. Together these essays make substantial descriptive contributions to American Indian anthropology, presenting contemporary interpretations of diverse groups from the Hudson Bay Inuit in the north to the Highland Maya of Chiapas in the south. The collection will serve as an introduction to Native American social and cultural anthropology for readers interested in the dynamics of Indian social life. *Social Anthropology of North American Tribes*, 1977 **Social Anthropology of North American Tribes** Frederick Russell Eggan, 1993 *Social Anthropology of North American Tribes* Fred Eggan, William H. Gilbert, L. Gilbert McAllister, Philleo Nash, 1950 **Social Anthropology of North American Tribes** F. Eggan, 1955

Encyclopedia of Social and Cultural Anthropology Alan Barnard, Jonathan Spencer, 1996 Providing a guide to the ideas, arguments, and history of the discipline, this volume discusses human social and cultural life in all its diversity and difference. Theory, ethnography, and history are combined in over 230 entries on topics. *Social Anthropology of North American Tribes* William H. Gilbert, Sol Tax, 1972 *Mobility and Ancient Society in Asia and the Americas* Michael David Frachetti, Robert N. Spengler III, 2015-07-20 Mobility and Ancient Society in Asia and the Americas contains contributions by leading international scholars concerning the character, timing, and geography of regional migrations that led to the dispersal of human societies from Inner and northeast Asia to the New World in the Upper Pleistocene ca 20 000–15 000 years ago. This volume bridges scholarly traditions from Europe, Central Asia, and North and South America, bringing different perspectives into a common view. The book presents an international overview of an ongoing discussion that is relevant to the ancient history of both Eurasia and the Americas. The content of the chapters provides both geographic and conceptual coverage of main currents in contemporary scholarly research, including case studies from Inner Asia, Kazakhstan, southwest Siberia, northeast Siberia, and North and South America. The chapters consider the trajectories, ecology, and social dynamics of ancient mobility, communication, and adaptation in both Eurasia and the Americas, using diverse methodologies of data recovery ranging from archaeology, historical linguistics, ancient DNA, human osteology, and palaeoenvironmental reconstruction. Although methodologically diverse, the chapters are each broadly synthetic in nature and present current scholarly views of when and in which ways societies from northeast Asia ultimately spread eastward and southward into North and South America and how we might reconstruct the cultures and adaptations related to Paleolithic groups. Ultimately

this book provides a unique synthetic perspective that bridges Asia and the Americas and brings the ancient evidence from both sides of the Bering Strait into common focus *Studying Native America* Russell Thornton, 1998 This book addresses for the first time in a comprehensive way the place of Native American studies in the university curriculum Provided by publisher **Indians of North America** Harold E. Driver, 2011-11-30 The art of reconstructing civilizations from the artifacts of daily life demands integrity and imagination Indians of North America displays both in its description of the enormous variation of culture patterns among Indians from the Arctic to Panama at the high points of their histories a variation which was greater than that among the nations of Europe For this second edition Harold Driver made extensive revisions in chapter content and organization incorporating many new discoveries and interpretations in archeology and related fields He also revised several of the maps and added more than 100 bibliographical items Since the publication of the first edition there has been an increased interest in the activities of Indians in the twentieth century accordingly the author placed much more emphasis on this period **Essays in Social Anthropology and Ethnology** Fred Eggan, 1975

Handbook of North American Indians: Plateau ,1998 Encyclopedic summary of prehistory history cultures and political and social aspects of native peoples in Siberia Alaska the Canadian Arctic and Greenland The Scioto Hopewell and Their Neighbors Daniel Troy Case, Christopher Carr, 2008-07-09 Bioarchaeological Documentation and Cultural Understanding **Social Anthropology of North American Tribes, By Fred Eggan (And Others)** Fred Eggan, Editor Fred Eggan, Alfred Reginald Radcliffe-Brown, 1962 Social Anthropology of North American Tribes, by Fred Eggan [and Others] , 1962 **Social Anthropology of North American Tribes** Fred ed Eggan, **Ethnographic Bibliography of North America: Plains and Southwest** George Peter Murdock, Timothy J. O'Leary, 1975 Approximately 15 000 entries dealing with ethnography history psychology human biology and medicine of native peoples of North America Includes published materials issued before and during 1972 American Indians in the Marketplace Brian C. Hosmer, 1999 Although it is usually assumed that Native Americans have lost their cultural identity through modernization some peoples have proved otherwise Brian Hosmer explores what happened when cultural identity and economic opportunity converged among two Native American communities that used community based industries to both generate income and sustain their cultures Comparing a lumber business run by the Menominees of Wisconsin and a salmon cannery established by British Columbian and Alaskan Tsimshian communities known as Metlakatla Hosmer reveals how each tribe responded to market and political forces over fifty years Hosmer's innovative ethnohistory recounts how these Indians used the marketplace to maintain their distinctiveness to a far greater extent than those who became wage earners in the white man's world Hosmer shows that by selectively incorporating elements of American capitalism into their cultural lives the Menominees and Metlakatlans came to view modernization less as a threat to their tribal life than as a means for maintaining their independence These tribes embraced the same market accused of hastening the demise of native societies and became comparatively successful in

American terms even as they both honored fundamental values and forged new cultural identities Over time these peoples came to understand how the market worked recognized that the broader economy operated according to market principles and learned how to adjust to it Hosmer reveals how their strategies of purposeful modernization brought relative economic independence and sometimes the respect and cooperation of local and federal governments how it helped chart a middle course between unchecked individuality and a communal ethos that might stifle economic development and how economic development and cultural values ultimately affected one another American Indians in the Marketplace is a story of adaptation that acknowledges the hardship and suffering common to most Indian white contact while emphasizing the benefits of selective modernization accompanied by a constant re invention of tradition It questions the victim thesis of Native American history and shows that native peoples can meet the challenges of surviving in the larger world **Social Anthropology of North American Tribes- Ed.
