The Transformation of the Swedish Welfare System Ali Hajighasemi,2004 What has happened to the once famous Swedish model Since the economic crisis in the 1990s prophecies of the imminent demise of the universal welfare state have been common Cutbacks in social benefits and mass unemployment seem to confirm these prophesies The author a citizen of Sweden with a Ph D from Durham University UK and a native of Iran thinks differently In this study he explores the role of social movements demographic economic and socio cultural conditions institutional change and globalization in the transformation of the Swedish welfare state Several programs were indeed recalibrated and a policy of cost containment came to dominate social policy making independent of whether the government was center left or center right Although the favorable conditions in the decades after WWII no longer obtain the downsizing of the welfare programs has basically followed an egalitarian and universal logic There are cracks in the wall but the Nordic welfare states have thus far survived and have shown themselves more resilient than most other social organizations in crisis Social scientists and politicians alike will find this book highly relevant for their work

Families and Family Policies in Europe Astrid Pfenning, Thomas Bahle, 2000 Comparative family policy studies have flourished in recent years. The growing recognition of family policy is related to far reaching changes in family structures since the mid 1960s and to the growth of European welfare states to fiscal and institutional limits. With recent welfare state reforms, the family, gender roles and the social division of labour have become prominent issues. This book contributes to comparative family policy studies by a distinct profile. Contributions typically include a small number of countries. The geographic focus is on Southern European and Scandinavian countries including comparisons to Austria, Belgium, Britain, Germany, Ireland and The Netherlands. The book combines quantitative and qualitative approaches, institutional and historical perspectives

The Modernization of Working Times Raija Julkunen, Jouko Nätti, 1999 In spite of European economic and political integration there is quite a large degree of variation between the working times in different countries. This book delves into the role of crisis in the modernization of working times in Finland. It looks at how flexibility and local bargaining made a breakthrough and what happened to the idea of work sharing. What sort of new innovations have taken place in the workplace and what was the role of the government in promoting societal aims

Human Rights and Social Policy Ann Neville, 2010 This fascinating study evaluates whether the recent focus on human rights, citizenship and values makes a difference to service delivery on the ground. In doing so it bridges the social policy and human rights literature. The book adopts a comparative approach with eight case studies examining the factors that drive policy making in a range of policy sectors in both EU and non EU countries. The contributing authors explore the ways in which legally enforceable rights and wider rights discourse influence the services that are provided across a range of policy sectors and welfare regimes. Further issues such as how patterns of

service provision can affect how people view and experience citizenship are also discussed Human Rights and Social Policy will strongly appeal to academics and students interested in work and family policies labour market activation policies welfare reform gender children s policy and housing policy
