## **Confessions of a Heretic**

Eric Leland Saak, 2025-06-15 This book is the second of a planned three volume systematic theology under the title Confessions of a Heretic Volume One which has the subtitle Philosophical Considerations was published by Archway in 2024 The project now turns to Theological Considerations with the forthcoming Volume Three being Ecclesiological Consideration Organized into three Parts Volume Two focuses on the theological endeavor and the doctrines distinctive to Christianity namely the Trinity Jesus Christ sin and salvation Based on the foundational distinctions and definitions explicated in Volume One the current volume seeks to ask what the philosophical considerations imply for basic traditional understandings and terminology of Christian theology including that of Jesus of Nazareth his crucifixion and resurrection The project as a whole adopts a trinitarian structure with this second volume focused on God the Son or as here termed God the Perfector The argument is that Christian Theology needs to shift from an anthropocentric to a theocentric approach recognizing human beings simply as creatures and having the courage to face what that entails Yet doing so necessitates a radical reconceptualization of the very foundations of Christian Theology itself in the attempt to combat idolatry

## **International Perspectives on Teaching and Learning Mathematics with Virtual Manipulatives**

Patricia S. Moyer-Packenham, 2016-06-21 This book explores terminology frameworks and research being conducted worldwide on virtual manipulatives It brings

together international authors who provide their perspectives on virtual manipulatives in research and teaching By defining terminology explaining conceptual and theoretical frameworks and reporting research the authors provide a comprehensive foundation on the study and use of virtual manipulatives for mathematics teaching and learning This foundation provides a common way for researchers to communicate about virtual manipulatives and build on the major works that have been conducted on this topic By discussing these big ideas the book advances knowledge for future research on virtual manipulatives as these dynamic tools move from computer platforms to hand held touch screen and augmented platforms
