**The Poetic Mind** Frederick Clarke Prescott,1926      *The Poetic Mind* Nicholas Oberpriller,2014-04-02      *The Poetic Mind* Frederick Clarke Prescott,2015-06-25 Excerpt from *The Poetic Mind* Some of the principles presented in this book are new This I acknowledge with misgiving for in a subject as old as poetry where orthodox views are particularly apt to be sound novelty is not a recommendation Fortunately most of the principles are old and all I hope rest on old foundations Indeed I have tried to return to and develop classical views of poetry which are now somewhat out of vogue In the main then old principles at most receive new interpretation and relation A discussion even of the present length dealing with many aspects of the large subject of poetry must be somewhat superficial It would have been easier and more satisfying to completeness to apply the principles herein developed to one or two divisions of the subject I have thought it better to carry them through several and apply them to poetry in most of its important aspects with the prefatory statement however that the treatment is introductory and provisional Each chapter invites correction and also demands development Some chapters I hope may lead to more thorough and sagacious inquiries The subject undertaken the operation of the poet s mind is fortunately not quite so broad as poetry itself This limitation however is counterbalanced by its lying halfway between two provinces literature on the one hand and psychology on the other Evidently its treatment calls for a special psychological training to which I cannot pretend as will no doubt sufficiently appear The subject as a whole so far as I know has not been attempted by the psychologists perhaps it is a field in which they wisely fear to tread In what follows a literary treatment is hazarded which may in the end I hope prove helpful to psychology Evidently the subject must be approached from both sides About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      **Poetic Mind** Frederick Clarke Prescott,2019      **Reason and Beauty in the Poetic Mind** Charles Williams,1978      *Vico's Science of Imagination* Donald Phillip Verene,1981 A full interpretation of Giambattista Vico s thought based primarily on his major work the *New Science* and on his earlier Latin writings      **The Poetic Mind. Great Seal Books** Frederick Clarke Prescott,1959      **Interart Poetics** ,2025-02-03 In this anthology are gathered 28 essays devoted to the interrelations of the arts and media They present together the current state of the emerging field of Interart Studies The contributors Stephen Greenblatt Claus Cl ver Erika Fischer Lichte John Neubauer Steven Paul Scher Walter Bernhart Ulrich Weisstein Eric T Haskell Eric Vos Thomas Elsaesser among others are leading international scholars in the fields of Art History Literary Criticism Musicology Film Theatre and Media Studies In

challenging ways they promote interdisciplinary strategies in the study of the traditional arts dance literature music painting sculpture theatre etc as well as of the modern media film TV video computer generated arts etc The essays collected engage in a broad perspective of topics approached from varying theoretical methodological or ideological viewpoints No single thread runs through the diversely conceived essays yet it is evident that what all contributors appear to envision is the importance today of investigations into the problems of what might be called the interart or intermedia discourse Aimed at university teachers scholars students and even artists this book will meet the demands from those interested in modern modes of interart and intermedia analysis
