## **The Politics Of Divination:**

*The Politics of Divination* Eugene L. Mendonsa, 2000-09 The Politics of Divination first published in 1982 was a ground breaking work in the political economy of an African culture the Sisala of Northern Ghana The author shows how elders use divination as a political tool to control the behavior of women and young men Gerontocratic control through ritual means is an attempt by elders to dominate the economic activities of youthful men and the production and reproduction of women Yet the elders are not entirely successful in such attempts and their efforts at social control sometimes have less than altruistic motives as the many cases in the book show The author presents divination and ancestral sacrifice in a processual view Within the context of the divinatory process strategizing elders work and rework the rules of their society to deal with real life situations illness misfortune and death Like many other Africans the Sisala believe that such misfortunes are ultimately caused by ancestral anger which can be seen as a reflection of social tension and conflict among the living Divination points out deviants in the family who are poised as the cause of such misfortunes and this conflict is rectified through ancestral propitiation via blood sacrifice on family shrines

**Politics of Divination** Joshua Ramey, 2016-09-26 Since the 2008 financial crisis the neoliberal ideas that arguably caused the damage have been triumphant in presenting themselves as the only possible solution for it How can we account for the persistence of neoliberal hegemony in spite of its obviously disastrous effects upon labor capital ecology and society The argument pursued in this book is that part of the persistence of neoliberalism has to do with the archaic and obscure political theology upon which of much of its discourse trades This is a political theology of chance that both underwrites and obscures sacrificial devotion to market outcomes Joshua Ramey structures this political theology around hidden homologies between modern markets as non rational randomizing meta information processors and archaic divination tools which are used in public acts of tradition bound attempts to interpret the deliverances of chance Ramey argues that only by recognizing the persistently sacred character of chance within putatively secularized discourses of risk and randomness can the investments of neoliberal power be exposed at their sacred source and an alternative political theology be constructed

**The Government of Chance** Yves Sintomer, 2023-02-16 This book provides the first systematic reconstruction of sortition in politics and democracy from Athens to contemporary experiments

**The Political Ethics of Alexander Campbell** Harold Linger, 2012-12-24 Description In these pages laymen will find themselves and their condition of life the center of attention at all times Consequently they will not find a specifically spiritual vocabulary or an alien pious rhetoric They will not find a long list of prayers practices and penances They will not find a list of things to be given up Patiently and gently these souls will open up to God They will see that true peace comes from true love and that love means an entire giving and that giving means some changes Such transitions are sometimes easy sometimes not But in the end what was once unwisely loved is now put aside and what was once foolishly despised is now embraced with gratitude Every man who has gone even a part of the way knows this The purpose of the book then is to open

the soul to the grace of God and to show some practical consequences of the love of God in a life that wants to find love and peace from the Introduction **The Yoruba** Akinwumi Ogundiran,2020-11-03 The Yoruba A New History is the first transdisciplinary study of the two thousand year journey of the Yoruba people from their origins in a small corner of the Niger Benue Confluence in present day Nigeria to becoming one of the most populous cultural groups on the African continent Weaving together archaeology with linguistics environmental science with oral traditions and material culture with mythology Ogundiran examines the local regional and even global dimensions of Yoruba history The Yoruba A New History offers an intriguing cultural political economic intellectual and social history from ca 300 BC to 1840 It accounts for the events peoples and practices as well as the theories of knowledge ways of being and social valuations that shaped the Yoruba experience at different junctures of time The result is a new framework for understanding the Yoruba past and present

**Notes on the Political and Judicial Organisation of the Tawana** Edmund Hugh Ashton,1937 **Atlas, or the Anxious Gay Science** Georges Didi-Huberman,Shane B. Lillis,2018-10-11 Aby Warburg's Mnemosyne Atlas 1925 1929 is a prescient work of mixed media assemblage made up of hundreds of images culled from antiquity to the Renaissance and arranged into startling juxtapositions Warburg's allusive atlas sought to illuminate the pains of his final years after he had suffered a breakdown and been institutionalized It continues to influence contemporary artists today including Gerhard Richter and Mark Dion In this illustrated exploration of Warburg and his great work Georges Didi Huberman leaps from Mnemosyne Atlas into a set of musings on the relation between suffering and knowledge in Western thought and on the creative results of associative thinking Deploying writing that delights in dramatic jump cuts reminiscent of Warburg's idiosyncratic juxtapositions and drawing on a set of sources that ranges from ancient Babylon to Walter Benjamin Atlas or the Anxious Gay Science is rich in Didi Huberman's trademark combination of élan and insight The Four Political Treatises of the Yellow Emperor Chun Zhang,Yu Feng,1998 Includes translations of the important manuscripts in silk found at the famous Mawangdui Tomb in 1973 *'The Eyesore of Aigina'* Katerina Meidani,Anton Powell,2016-12-31 Our ideas about ancient Athens are constructed very largely from the writings of Athenian authors Relatively rare are our sources for how others whether Greeks Asiatics or Romans saw Athens from the outside Yet we can see that not only did many across the Mediterranean world resist the political power of Athens in countless wars over several centuries but that there existed an intriguing variety of anti Athenian ideologies The 12 new studies in this volume by a distinguished international cast trace negative thinking about Athens from the late archaic period to Roman times They challenge the easy modern supposition that Athens was generally seen as the cultural emblem of Greece and cast light on the thinking of ancient peoples who nowadays tend to exist in Athens shadow **The Treatises of M. Continuity and Change in a West African Society Eugene L. Mendonsa, 2001 This book looks at the political economy of the Sisala of Northern Ghana showing how the creation of their society was influenced from the very beginning by the world system primarily through slave raiding Mendonsa shows how their society continues to be influenced by the global economy today and how such contacts with the outside world are altering their ability to survive in the savanna as farmers The two main foci of the book are 1 How outside influences agricultural inputs consumer goods cash cropping and urban markets have affected and changed the relationships between elders women and young men as elders attempt to control the labor of their subordinates within the context of the gerontocracy that functions as the political economy of their society 2 Dependency on petroleum petroleum driven machinery imported fertilizer and other chemicals This is a tenuous position for Sisala farmers many of them being subordinates women and young men who have become involved in cash cropping Mendonsa proposes a more sustainable form of farming in animal traction technology and gives data to show how such technology and organic methods such as composting green manuring and intercropping can provide a sustainable base for the ongoing nature of Sisala society
