## **Snapshots 20th Century Mother Daughter Fiction:**

**Snapshots** Joyce Carol Oates, Janet Berliner, 2000 A collection of seventeen stories written by some of the century's best women writers deals with a single central and vital theme: the relationship of mothers to daughters and daughters to mothers. Front jacket **The Short Story Anthology and Women's Writing** Aleix Tura Vecino, 2025-08-14 Hundreds of anthologies of women's short stories have appeared in the literary market between the 1970s and now. This publishing and cultural phenomenon is considered for the first time in this book, which argues that during this period anthologies have become a literary technology used not only to make visible female short story writers but also to think about and mould ideas of womanhood. Through creative and contextualised readings of the most important anthologies produced in this period, this study shows that this literary form has contributed to and in some cases pioneered key developments in gender theory and feminist thought, including questions of political combination among women which underlie contemporary global movements such as MeToo. In doing so, the book also develops the first book length conceptualisation of the features and meaning making mechanisms of the short story anthology as a literary form. This book will benefit academics and students working in the fields of short fiction publishing and women's studies, as well as feminist scholars and a growing number of specialists interested in the anthology as a literary form worldwide.

**Sex, Race, and Family in Contemporary American Short Stories** M. Bostrom, 2007-08-06 This book reveals a female sexual economy in the marketplace of contemporary short fiction, which locates a struggle for sexual power between mothers and daughters within a larger struggle to pursue that object of the American dream: whiteness.

**Women of Color and the Mother-daughter Narrative** Marisa Traylor, 2001 **How to Write A Short Story (And Think About It)** Robert Graham, 2017-09-16 Short story publishing is flourishing in the 21st century and is no longer seen as a poor relation of the novel. But what is a short story? And how do you write one? Robert Graham takes you through everything you need to know from how a writer works to crafting and editing your own fiction. This heavily revised edition features new chapters by contemporary fiction writers. Stressing the importance of reading broadly and deeply, the book includes a wide range of prompts and writing exercises. It teaches you how to read as a writer and write like somebody who has read. You will learn the elements of craft you need to produce short stories and one of the key writer's disciplines: reflecting on your own work. Whether you are a student or an experienced author, this book will teach you how to write short stories and reflect on the creative processes involved. The book features chapters from writer teachers James Friel, Ridge Glass, Ursula Hurley, Heather Leach, Helen Newall, Jenny Newman, James Rice and Tom Vowler.
