## **Social Change And The Family In Taiwan:**

**Social Change and the Family in Taiwan** Arland Thornton, Hui-Sheng Lin, 1994 Until the 1940s social life in Taiwan was generally organized through the family marriages were arranged by parents for example and senior males held authority. In the following years as Taiwan evolved rapidly from an agrarian to an industrialized society individual decisions became less dependent on the family and more influenced by outside forces. Social Change and the Family in Taiwan provides an in-depth analysis of the complex changes in family relations in a society undergoing revolutionary social and economic transformation. This interdisciplinary study explores the patterns and causes of change in education, work, income, leisure time, marriage, living arrangements, and interactions among extended kin. Theoretical chapters enunciate a theory of family and social change centered on the life course and modes of social organization. Other chapters look at the shift from arranged marriages toward love matches as well as changes in dating practices, premarital sex, fertility, and divorce. Contributions to the book are made by Jui Shan Chang, Ming Cheng Chang, Deborah S. Freedman, Ronald Freedman, Thomas E. Fricke, Albert Hermalin, Mei Lin Lee, Paul K. C. Liu, Hui Sheng Lin, Te Hsiung Sun, Arland Thornton, Maxine Weinstein, and Li Shou Yang.

*The Family and Social Change in Chinese Societies* Dudley L. Poston, Jr., Wen Shan Yang, Demetrea Nicole Farris, 2013-11-26 This book focuses on families and their changes in Taiwan and China. Traditional notions of what constitutes a family have been changing in China, Taiwan, and other Asian countries. The chapters in this book provide interesting methodological and substantive contributions to the discourse on family and social change in Chinese societies. They also underscore the implications of the various social changes in Chinese families. Written by Chinese and Western scholars, they provide an unprecedented overview of what is known about the effects of social change on Chinese families. One might think that defining a family is an easy task because the family is so significant to society and is universal. The family is the first place we learn culture norms, values, and gender roles. Families exist in all societies throughout the world, but their constitution differs. In the past several decades, there have been many changes in the family in Taiwan and China. For instance, whereas in the West we use a bilineal system of descent in which descent is traced through both the mother's side and the father's side of the family, in many parts of China descent is patrilineal, although this is changing. And China and Taiwan are starting to assume a family constitution similar to that in the West. This and other issues are discussed in great detail in this book. Indeed, it is the very nature of the differences that motivated the writing of this book on changing families in Taiwan and China. The chapters in Part I, The Family in Taiwan and China, focus on the basic family issues in Taiwan and China that provide the groundwork for many of the chapters that follow. Chapter 1 is about the distribution of resources in the family in Taiwan. Chapter 2 focuses on filial piety and the autonomous development of adolescents in the Taiwanese family, and Chapter 3 explores the important issue of family poverty in Taiwan. Chapter 4 moves away from Taiwan and looks at several issues of family growth and change in Hong Kong, noting the interesting similarities and differences between Hong

Kong and China Part II Issues of Marriage the Family and Fertility in Taiwan and China focuses specifically on marriage family and fertility In Chapter 5 the authors discuss the relationships between marital status socioeconomic status and the subjective well being among women in Hong Kong and Taiwan Chapter 6 describes patterns of sexual activity in China and the United States Chapter 7 considers gender imbalances in Taiwan and their impact on the marriage market Chapter 8 also focuses on Taiwan and examines the effects of mothers attitudes on daughters interaction with their mothers in law Chapter 9 compares female and male fertility trends and changes in Taiwan Part III Children and the Family in East Asia and in Western Countries consists of comparative studies of the family and children Chapter 10 examines the dynamics of grandparents caring for children in China Chapter 11 explores family values and parent child interaction in Taiwan Chapter 12 examines the significant amount of diversity among families in contemporary Taiwan Chapter 13 describes adolescent development in Taiwan Chapter 14 examines the impact of son preference on fertility in China South Korea and the United States And Chapter 15 explores the determinants of intergenerational support in Taiwan The final chapter in our book the only chapter in Part IV The Family and the Future in Taiwan examines the future of the family in Taiwan with respect especially to the marriage market and aged dependency *The Dynamics of Social Changes and Family Attainment Norms* Huey-Chi Chang,2006

offers a wide ranging examination of Chinese institutional change in areas of education religion health care economics labor family and local communities in the post Mao era Based on the pioneering work of sociologist C K Yang 1911 1999 and his institutional diffusion theory the essays analyze and develop the theory as it applies to both public and private institutions The interrelationship of these institutions composes what Yang termed the Chinese system and affects nearly every aspect of life Yang examined the influence of external factors on each institution such as the influence of Westernization and Communism on family and the impact of industrialization on rural markets He also analyzed the impact of public opinion and past culture on institutions therein revealing the circular nature of diffusion Perhaps most significant are Yang s insights on the role of religion in Chinese society Despite the common perception that China had no religion he uncovers the influence of classical Confucianism as the basis for many ethical value systems and follows its diffusion into state and kinship systems as well as Taoism and Buddhism Writing in the early years of Communism Yang had little hard data with which to test his theories The contributors to this volume expand upon Yang s groundbreaking approach and apply the model of diffusion to a rapidly evolving contemporary China providing a window into an increasingly modern Chinese society and its institutions
