**Generation to Generation** Kelin E. Gersick,1997 **Family Business on the Couch** Manfred F. R. Kets de Vries,Randel S. Carlock,2007-10-29 The challenge faced by family businesses and their stakeholders is to recognise the issues that they face understand how to develop strategies to address them and more importantly to create narratives or family stories that explain the emotional dimension of the issues to the family The most intractable family business issues are not the business problems the organisation faces but the emotional issues that compound them Applying psychodynamic concepts will help to explain behaviour and will enable the family to prepare for life cycle transitions and other issues that may arise Here is a new understanding and a broader perspective on the human dynamics of family firms with two complementary frameworks psychodynamic and family systematic to help make sense of family run organisations Although this book includes a conceptual section it is first and foremost a practical book about the real world issues faced by business families The book begins by demonstrating that many years of achievement through generations can be destroyed by the next if the family fails to address the psychological issues they face By exploring cases from famous and less well known family businesses across the world the authors discuss entrepreneurs the entrepreneurial family and the lifecycles of the individual and the organisation They go on to show how companies going through change and transition can avoid the

pitfalls that endanger both family and company. The authors then apply tools that will help family businesses in transition and offer their analyses and conclusions. Readers should draw their own conclusions from careful examination of the cases identifying the problems or dilemmas faced and the options for improved business performance and family relationships. They should ask what they might have done in the given situation and what new insight into individual or family behaviour each case offers. The goal is to avoid a bitter ending.

**Family Business Matters** Harry Moore Mbe, 2021-05-13

Running a business is not easy and for most people life is more comfortable as an employee rather than employer. At its worst managing a business can be likened to warfare with the potential enemies being manifold in the form of competition costs market forces adverse economic trends access to resources etc. As if this isn't enough if you are running a family business it can be almost like fighting a war on two fronts there is the business and its issues on the one side and the family and their needs on the other and reconciliation of the two can often be challenging and in some cases totally impossible. It's a matter of having to cope with two agendas All businesses and organisations must cope with the mixture of personal and corporate needs and in particular the desires and objectives of the individuals managing the enterprise. With a family business the added challenge is that the personal side will include people who may not actually be employed in the business but who may be owners family members dependent on the business for their income or family members who may simply influence the decision making process through relationships with managers or owners. The purpose of this book is to assist family and owner managed businesses to succeed. The definition of success can range from simple survival to empirical growth depending upon the aims and aspirations of the owners.
