## **Stability And Change In Congress:**

**Malfunctioning Democracy in Japan** Yoshiaki Kobayashi, 2012-01-01 Many advanced countries are facing a shared problem that democracy is not functioning as well as it should. *Malfunctioning Democracy in Japan: Quantitative Analysis in a Civil Society* by Yoshiaki Kobayashi investigates the causes of these problems using Japan as a particular case study. Kobayashi begins with a discussion of the current functionality of democracy in Japan. These first chapters examine whether pledges given by political parties are ever fulfilled, which factors affect campaign pledges given by candidates at each election, and if there are discrepancies between public opinion and party policies. The next sections focus on the behavior of politicians and the behavior of voters. Kobayashi conducts a macro analysis using aggregate data such as demographic and economic data, and then moves to micro analysis using individual level data to clarify precisely which factors determine voting behavior. Part Five approaches the elections which were held after Japan's political reform inclusive of the 2009 lower house election which caused significant changes. Kobayashi considers point of view of issue voting, voting on the basis of the preference of party policies, and point of view of retrospective voting, voting on the basis of the evaluation of government performance. Finally, *Malfunctioning Democracy in Japan* makes proposals for political reform. Kobayashi's last chapter turns to the future and discusses both positive and possible changes to electoral systems: the registration of campaign pledges, the control over political influence on the public sector, and the eventual eradication of political corruption. **The Federalist**

**Papers and Institutional Power In American Political Development** D. Wirls, 2015-04-08 This book reconnects *The Federalist Papers* to the study of American politics and political development, arguing that the papers contain previously unrecognized theory of institutional power, a theory that enlarges and refines the contribution of the papers to political theory, but also reconnects the papers to the study of American politics. **U.S. Farm Bills and Policy Reforms** Nadine Lehrer, 2010 Nadine Lehrer is a post doctoral researcher at Washington State University's Tree Fruit Research and Extension Center in Wenatchee, Washington. She holds a PhD in natural resources science and management from the University of Minnesota Twin Cities and a BA in psychology from Yale University. Dr. Lehrer has published articles in the *Journal of Environmental Planning and Management*, *Agriculture and Human Values*, *Agroforestry Systems*, and *Rural Realities*. Book jacket [Regulatory Politics in an Age of Polarization and Drift](#)

Marc Allen Eisner, 2017-02-24 Regulatory change is typically understood as a response to significant crises like the Great Depression or salient events that focus public attention like Earth Day 1970. Without discounting the importance of these kinds of events, change often assumes more gradual and less visible forms. But how do we see change, and what institutions and processes are behind it? In this book, author Marc Eisner brings these questions to bear on the analysis of regulatory change, walking the reader through a clear-eyed and careful examination of the dynamics of regulatory change since the 1970s: social regulation and institutional design, forms of gradual change including conversion, layering, and drift, gridlock, polarization, and the privatization of regulation, financial collapse, and

the anatomy of regulatory failure Demonstrating that transparency and accountability the hallmarks of public regulation are increasingly absent and that deregulation was but one factor in our most recent significant financial collapse the Great Recession this book urges readers to look beyond deregulation and consider the broader political implications for our current system of voluntary participation in regulatory programs and the proliferation of public private partnerships This book provides an accessible introduction to the complex topic of regulatory politics ideal for upper level and graduate courses on regulation government and business bureaucratic politics and public policy

**Stability and Change in Congress** Barbara Hinckley,1987-01-01 Hearings, Reports and Prints of the Senate Committee on Government Operations United States. Congress. Senate. Committee on Government Operations,1966 **The Study of Government** George Helm Yeaman,1871 Proceedings of the Council of the Governor of Bombay Assembled for the Purpose of Making Laws Bombay (India : State).

Legislature. Legislative Council,1897 **American Government and Politics Today** Bardes,Barbara A. Bardes,Mack C. Shelley,Steffen W. Schmidt,2001-06-15 Booknews This textbook on American government and politics seeks to encourage direct participation by citizens in the political process Each chapter includes a discussion question on a controversial issue and an example of how the student can become actively involved in American politics A sampling of topics includes the Constitution federalism civil rights political parties elections Congress the Presidency bureaucracy the Judiciary domestic and economic policy and foreign policy Coverage extends to the results of the November 2000 presidential elections with an analysis of its implications for the future

**Electronic Government** Marijn Janssen,Joep Crompvoets,J. Ramon Gil-Garcia,Habin Lee,Ida Lindgren,Anastasija Nikiforova,Gabriela Viale Pereira,2024-08-20 This book constitutes the proceedings of the 23rd IFIP WG 8.5 International Conference EGOV 2024 held in Ghent Belgium during September 3-5 2024 The 29 full papers presented were carefully selected from 69 submissions They were categorized under the topical sections as follows Foundations Digital transformation Public Services AI in government Open government Emerging topics

**Popular Government and the Supreme Court** Lane V. Sunderland,1996 With quiet eloquence Lane Sunderland argues that we must reclaim the fundamental principles of the Constitution if we are to restore democratic government to its proper role in American life For far too long he contends the popular will has been held in check by an overly powerful Supreme Court using non constitutional principles to make policy and promote its own political agendas His work shows why this has diminished American democracy and what we can do to revive it Sunderland presents a strong thoughtful challenge to the constitutional theories promoted by Ronald Dworkin Archibald Cox Richard Epstein Michael Perry John Hart Ely Robert Bork Philip Kurland Laurence Tribe Mark Tushnet and Catharine MacKinnon an enormously diverse group united by an apparent belief in judicial supremacy Their theories he demonstrates undermine the democratic foundations of the Constitution and the power of the majority to resolve for itself important questions of justice Central to this enterprise is Sunderland's reconsideration of *The Federalist* as the first most reliable and most profound commentary on the Constitution

The Federalist he states is crucial because it explains the underlying theory of the Constitution as a whole a theory that gives meaning to its particular provisions In addition Sunderland reexamines the Declaration of Independence and the work of Hobbes Locke and Montesquieu in order to better define the nature and limits of their influence on the Framers His reading of these works in conjunction with The Federalist shows just how far afield contemporary commentators have strayed Sunderland deliberately echoes and amplifies Madison s wisdom in Federalist No 10 that the object of the Constitution is to secure the public good and private rights and at the same time to preserve the spirit and form of popular government To attain that object he persuasively argues requires that the judiciary acknowledge and enforce the constitutional limitations upon its own powers In an era loudly proclaiming the return of popular government majority rule and the will of the people that argument is especially relevant and appealing

The Korean Journal of Policy Studies ,2015      **Congressional Record** United States. Congress,2012      **India Polls 1996** Shiv Lal,1997      *Government and Politics* Bernard Edward Brown,1966 *Government and Politics* is a comprehensive introduction to the whole broad field of political science In the plan of the book the authors have combined the most useful features of two classic ways of organizing the beginning course comparative government the description and analysis of specific of specific political systems and elements of politics generalization about basic problems and concepts They have also successfully drawn on two supposedly disparate approaches to analysis the institutional and the behavioral Part I The Universe of Public Governments presents a general discussion of historic patterns of political development together with descriptions in depth of the governmental systems of Great Britain France the United States Germany the Soviet Union and the developing countries Part II Political Relations among Governments is concerned with politics at two different levels relations among political systems international politics and within systems national state and local politics Par III Political Behavior and Political Functions offers detailed description and analysis of the most important institutions and processes of government A final section Political Theory and Political Analysis considers the language and methods of political inquiry as well as ideologies and political doctrines This book had its inception when all the authors were teaching in the introductory course at Vanderbilt University Though each chapter was written by a specialist on the particular subject the participation of each of the authors in the planning and editing of the manuscript gives to the book the breadth and unity of outlook needed in an introductory text Publisher      The Ridpath Library of Universal Literature ...
