**The Guide for the Perplexed** Moses Maimonides, Before the sun of Eli had set the sun of Samuel had risen Before the voice of the prophets had ceased to guide the people the Interpreters of the Law the Doctors of the Talmud had commenced their labours and before the Academies of Sura and of Pumbadita were closed centres of Jewish thought and learning were already flourishing in the far West The circumstances which led to the transference of the head quarters of Jewish learning from the East to the West in the tenth century are thus narrated in the Sefer ha kabbalah of Rabbi Abraham ben David After the death of Hezekiah the head of the Academy and Prince of the Exile the academies were closed and no new Geonim were appointed But long before that time Heaven had willed that there should be a discontinuance of the pecuniary gifts which used to be sent from Palestine North Africa and Europe Heaven had also decreed that a ship sailing from Bari should be captured by Ibn Romahis commander of the naval forces of Abd er rahman al nasr Four distinguished Rabbis were thus made prisoners Rabbi \_ushiel father of Rabbi \_anel Rabbi Moses father of Rabbi \_anok Rabbi Shemarjahu son of Rabbi El\_anan and a fourth whose name has not been recorded They were engaged in a mission to collect subsidies in aid of the Academy in Sura The captor sold them as slaves Rabbi \_ushiel was carried to Kairuan R Shemarjahu was left in Alexandria and R Moses was brought to Cordova These slaves were ransomed by their brethren and were soon placed in important positions When Rabbi Moses was brought to Cordova it was supposed that he was uneducated In that city there was a synagogue known at that time by the name of Keneset ha midrash and Rabbi Nathan renowned for his great piety was the head of the congregation The members of the community used to hold meetings at which the Talmud was read and discussed One day when Rabbi Nathan was expounding the Talmud and was unable to give a satisfactory explanation of the passage under discussion Rabbi Moses promptly removed the difficulty and at the same time answered several questions which were submitted to him Thereupon R Nathan thus addressed the assembly I am no longer your leader that stranger in sackcloth shall henceforth be my teacher and you shall appoint him to be your chief The admiral on hearing of the high attainments of his prisoner desired to revoke the sale but the king would not permit this retraction being pleased to learn that his Jewish subjects were no longer dependent for their religious instruction on the schools in the East Henceforth the schools in the West asserted their independence and even surpassed the parent institutions The Caliphs mostly opulent gave every encouragement to philosophy and poetry and being generally liberal in sentiment they entertained kindly feelings towards their Jewish subjects These were allowed to compete for the acquisition of wealth and honour on equal terms with their Mohammedan fellow citizens Philosophy and poetry were consequently cultivated by the Jews with the same zest as by the

Arabs Ibn Gabirol Ibn asdai Judah ha levi ananel Alfasi the Ibn Ezras and others who flourished in that period were the ornament of their age and the pride of the Jews at all times The same favourable condition was maintained during the reign of the Omeyades but when the Moravides and the Almohades came into power the horizon darkened once more and misfortunes threatened to destroy the fruit of several centuries Amidst this gloom there appeared a brilliant luminary which sent forth rays of light and comfort this was Moses Maimonides **The Guide for the Perplexed** E F. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book without typos from the publisher. Not indexed. Not illustrated. 1919 edition. Excerpt: Aristotle could not have considered them conclusive after having himself taught us the rules of logic and the means by which arguments can be refuted or confirmed. The reason why I have introduced this subject is this. Later philosophers' disciples of Aristotle assume that he has proved the Eternity of the Universe and most of those who believe that they are philosophers blindly follow him in this point and accept all his arguments as conclusive and absolute proofs. They consider it wrong to differ from Aristotle or to think that he was ignorant or mistaken in anything. For this reason taking their standpoint I show that Aristotle himself did not claim to have proved the Eternity of the Universe. He says in his book Physics viii chap i as follows: All the Physicists before us believed that motion is eternal except Plato who holds that motion is transient according to his opinion the heavens are likewise transient. Now if Aristotle had conclusive proofs for his theory he would not have considered it necessary to support it by citing the opinions of preceding Physicists nor would he have found it necessary to point out the folly and absurdity of his opponents. For a truth once established by proof does neither gain force nor certainty by the consent of all scholars nor lose by the general dissent. We further find that Aristotle in the book The Heavens and the Worldj introduces his theory of the Eternity of the Universe in the following manner: Let us inquire into the nature of the heavens and see whether they are the product of something or not, destructible or not. After this statement of the problem he proceeds to cite the views of those who hold that the heavens have had a beginning and

Moses Maimonides' Guide of the Perplexed is the greatest philosophical text in the history of Jewish thought and a major work of the Middle Ages. For almost all of its history however the Guide has been read and commented upon in translation in Hebrew, Latin, Spanish, French, English and other modern languages rather than in its original Judeo Arabic. This volume is the first to tell the story of the translations and translators of Maimonides' Guide and its impact in translation on philosophy from the Middle Ages to the present day. A collection of essays by scholars from a range of disciplines the book unfolds in two parts. The first traces the history of the translations of the Guide from medieval to modern renditions. The second surveys its influence in translation on Latin scholastic, early modern and contemporary Anglo American philosophy as well as its impact in translation on current scholarship. Interdisciplinary in approach this book will be essential reading for philosophers.
