**The Hand Gun Story** John Walter, 2008-06-30 A firearms expert traces the history of the one hand gun from its 14th century origins surveying changing technology techniques and design Midwest Book Review Ideally suited for both attack and self defense handguns have gotten smaller and deadlier But the earliest pistols had a tendency to misfire This was cured by the cap lock which proved a massive success in the American Civil War with hundreds of thousands of cap lock revolvers used on each side Self contained metal case cartridges were to bring a fundamental change to handgun design not only by allowing the introduction of revolvers that ejected automatically or were easily reloaded but also by paving the way for the automatic pistol World War I provided the handgun with a proving ground At the end of the hostilities with so much surplus weaponry work on the handgun could have ceased instead a new developmental phase was begun by the nations that had emerged from the crumbling Imperial empires During World War II the efficiency of well established designs was confirmed and new designs such as the Walther P 38 showed their potential The emergence of the submachine gun in 1945 reduced the status of the handgun but only temporarily The need for efficient self defense shows no signs of lessening and the rise in shooting for sport particularly with the revolver has sharpened the quest for efficiency The never ending search for advanced production techniques shows that the handgun has as much a future in the twenty first century as it had in the heyday of the Wild West or in the trenches of Passchendaele      **Handguns** John Walter, 2013 *Handguns* is a comprehensive visual directory of over 350 guns Divided into five chapters with each covering a category of pistol or revolver the book begins with an introduction to the history of handguns and then examines the different types of firearm in chronological order Each selected weapon features an authoritative description of the gun and its history accompanied by a list of key technical data

Classic handguns including models by Smith Wesson Walther Luger and Beretta are allocated a double page spread and illustrated by a near actual size photograph specially taken by the Royal Armouries Compiled by a world renowned arms expert and illustrated with rich colour images this is an essential book for anyone fascinated by weaponry **Colorado Revised Statutes** Colorado,2014 The Police Officer's Guide to Operating and Surviving in Low-light and No-light Conditions Tony L. Jones,2002 This book reminds the reader that many police shootings occur during diminished light and with few exceptions officers do not receive enough training in these conditions in addition recommendations are made for officers to use senses other than vision teamwork and technological innovations to increase an officer s chance of success when working in dim light or no light conditions The majority of crimes and officer shootings occur at night in diminished light or no light settings The Federal Bureau of Investigation reports that during a 9 year period 1985 1994 almost 63 percent of police officer deaths occurred between 6 00 p m and 6 00 a m During these hours it is difficult for officers to accurately identify an alleged suspect s face easily or identify any weapons he or she may be in possession of Add stress and an increased heart rate to an already tense situation and it is easy to understand the need for additional training under these conditions The dark is fraught with peril and danger but increased training can alleviate stress and increase proficiency Moreover officers can rely upon other senses and additional training can help facilitate decision making under these difficult circumstances Technological advances and team techniques can also be incorporated into officer training Directional microphones night vision and thermal imaging devices and infrared lights are a few of the technological advances that may aid officer shootings during dim light or no light environments *The Midas Trap (Mills & Boon Silhouette)* Sharron McClellan,2014-06-13 Her reputation was trashed He d helped ruin it Now he needed her knowledge A trap or the chance of a lifetime Annual Report of the Maryland State Police Maryland State Police,1995 Reports of Cases Decided in the Appellate Division of the Supreme Court of the State of New York New York (State).
