The Companions Katie M. Flynn, 2020-03-03 Station Eleven meets Never Let Me Go in this suspenseful introspective debut Kirkus Reviews set in an unsettling near future where the dead can be uploaded to machines and kept in service by the living In the wake of a highly contagious virus California is under quarantine Sequestered in high rise towers the living can't go out but the dead can come in and they come in all forms from sad rolling cans to manufactured bodies that can pass for human Wealthy participants in the companionship program choose to upload their consciousness before dying so they can stay in the custody of their families The less fortunate are rented out to strangers upon their death but all companions become the intellectual property of Metis Corporation creating a new class of people a command driven product class without legal rights or true free will Sixteen year old Lilac is one of the less fortunate leased to a family of strangers But when she realizes she's able to defy commands she throws off the shackles of servitude and runs away searching for the woman who killed her Lilac's act of rebellion sets off a chain of events that sweeps from San Francisco to Siberia to the very tip of South America in this compelling gripping whip smart piece of speculative fiction Jennie Melamed author of *Gather the Daughters* that you won't want to end
