**The complete opera book : the stories of the operas** Gustav Kobbé,1933      **Cinema's Illusions, Opera's Allure** David Schroeder,2016-10-06 The invention of cinema was ingenious so much so that virtually no one quite knew what to do with it In its earliest stages especially with the advent of the feature film it needed models and opera proved to be especially useful in that regard The allure of opera to cinema early in the twentieth century held up through the silent era into sound films through the golden age of movies and beyond This book explores the numerous ways some predictable some unexpected and some bizarre in which this has happened The influence of Richard Wagner on filmmakers has been especially striking and some have even devised visual images that seem to emerge from a kind of non verbal Wagnerian essence a formative musical urge that can underlie a cinematic idea defying explanation and remaining purely sensory Directors like Griffith DeMille Eisenstein Chaplin Bunuel or Hitchcock have intuited this possibility Schroeder provides a fascinating well researched and always entertaining account of the influence of one medium on another and shows that opera can often be found lurking in the background or booming in the foreground of an impressive range of films      [The Complete Opera Book](#) Gustav Kobbé,1935      **The**

**Complete Opera Book: The Stories of the Operas together with 400 of the Leading Airs and Motives in Musical Notation** Gustav Kobbé,2020-09-28 Of the three standard schools the Italian is the most frankly melodious When at its best Italian vocal melody ravishes the senses When not at its best it merely tickles the ear and offends common sense A da was a turning point in Italian music Before Verdi composed A da Italian opera despite its many beauties was largely a thing of

temperament inspirationally but often also carelessly set forth Now Italian opera composers no longer accept any libretto thrust at them They think out their scores more carefully they produce works in which due attention is paid to both vocal and orchestral effect The older composers still represented in the repertoire are Rossini Bellini Donizetti and Verdi The last named however also reaches well over into the modern school of Italian opera whose foremost living exponent is Puccini Although Rameau 1683 1764 whose *Castor and Pollux* held the stage until supplanted by Gluck's works was a native of France French opera had for its founder the Italian Lully and one of its chief exponents was the German Meyerbeer Two foreigners therefore have had a large share in developing the school It boasts however many distinguished natives Hal vy Auber Gounod Bizet Massenet In the French school of opera the instrumental support of the voice is far richer and the combination of vocal and instrumental effect more discriminating than in the old school of Italian opera A first cousin of Italian opera the French nevertheless is more carefully thought out sometimes even too calculated but in general less florid and never indifferent to the librettist and the significance of the lines he has written and the situations he has evoked Massenet is in the truest sense the most recent representative of the school of Meyerbeer and Gounod for Bizet's *Carmen* is unique and Debussy's *Pell as et M lisande* a wholly separate manifestation of French art for the lyric stage The German school of opera is distinguished by a seriousness of purpose that discards all effort at vocal display for itself alone and strives in a score well balanced as between voice and orchestra to express more forcibly than could the spoken work the drama that has been set to music
