**Book** Gavin Parkinson, 2008-05 Marcel Duchamp 1887 1968 was without doubt one of the most controversial artists of the twentieth century Associated with cubism Dada and Surrealism his invention of the readymade led him to produce some of the most iconic works of his era While he is often cited as the most influential artist of his generation and is seen by many to be the progenitor of much of the conceptual and postmodern art of today the writing published to date on Duchamp is often obscure and mired in theory Extensively illustrated and featuring Duchamp s own writings The Duchamp Book provides a much needed accessible introduction to the artist *Library Catalog of the Metropolitan Museum of Art, New York.*
