Stanley Rosen,2000 Philosophy in the twentieth century has been dominated by the urge for analysis a methodology that is  
supposed to be comparable in clarity and correctness to scientific thought In this brilliant and devastating attack on such  
exaggerated claims Stanley Rosen demonstrates how analysis alone lacks the power to approach the deepest and most  
important philosophical questions He thus provides us with a new and deeper understanding of the nature and limits of  
analytic thinking      **Government Reports Index** ,1972      Bibliography of Scientific and Industrial Reports ,1971
