*Het soloconcert Leo Samama, 2016-01-27* Sinds het einde van de zeventiende eeuw is het soloconcert een van de meest geliefde genres in de concertzaal. In Het soloconcert behandelt Leo Samama de ontwikkeling van dit genre en laat daarbij de belangrijkste concerten tot in onze tijd de revue passeren. Van Corelli tot Cage en van Bach tot Boulez. Natuurlijk komen ook de meesterwerken van Mozart, Beethoven, Schumann, Brahms, Rachmaninov, Gershwin en vele andere lievelingen van het concertpubliek aan bod. De meeste werken worden kort besproken en voorzien van achtergrondinformatie en opvallende kenmerken. Samama verschaft een gedetailleerde ontwikkelingsgeschiedenis van het genre met aandacht voor de uiteenlopende verschijningsvormen van het concert sinds het ontstaan ervan in de tweede helft van de zeventiende eeuw. Het boek is bovendien voorzien van tal van voorbeelden en illustraties. Voor alle liefhebbers van het soloconcert.

[Enterprise and Social Rights](#) Adalberto Perulli, Tiziano Treu, 2017-06-15. Globalization has led to growing labour fragmentation and widening of gaps in social protection. Although the enterprise is increasingly expected to be socially responsible in actuality, extreme worker inequalities and social dumping have become ubiquitous worldwide. This volume, the first to focus attention on the theory of the firm as it reveals itself in today's world from a multidisciplinary perspective, underscores the necessity to rebuild a new scientifically controlled paradigm that acknowledges and regulates the dimension of power in the functioning of the organization. In their contributed essays, nineteen renowned scholars in labour law and industrial relations rethink the firm, its conception, its value and its regulation, analysing such aspects as the following: labour management relations issues that arise when companies go global but workers remain local; the firm as a social construction; the continuing necessity for collective bargaining; concealment of the employment relationship under the guise of self employment; concealment of the real employer behind figureheads and shell companies; social welfare effects of outsourcing; the company's interaction with the network of suppliers and with local education processes; determining who actually carries responsibility towards workers; overcoming companies' drive to enter the global market in response to national regulation; realizing the notion of duty of care; mechanisms of participation of workers in the management of the enterprise; and the persistent limitations that women face in the workplace even when worker participation is advocated. With attention to innovative developments in Germany, Italy, Japan and other countries, analyses include case studies of specific companies as well as case law in particular the European Court of Justice's jurisprudence in matters of collective dismissals, seconded workers and public contracts. In their head on tackling of the fragmentation and blurring of social responsibility in enterprise organization, these important essays propose a view of the enterprise as a factor in a new constitutionalisation of labour that shifts employment protection from single legal entities to the network's economic activity, thus realigning the legal boundaries of the enterprise with its economic reality. As a compelling investigation of how a satisfactory implementation of labour standards in the fragmented enterprise can be guaranteed, this book will be studied by entrepreneurs, managers, consultants, corporate lawyers, judges, human rights experts

and trade unionists and will be welcomed by academics and researchers in industrial relations and labour law **Situational Project Management** Oliver F.
