**Algorithms and Data Structures** Frank Dehne, Jörg-Rüdiger Sack, Nicola Santoro, 1991-07-24 This volume presents the proceedings of the Second Workshop on Algorithms and Data Structures WADS 91 held at Carleton University in Ottawa. The workshop was organized by the School of Computer Science at Carleton University. The workshop alternates with the Scandinavian Workshop on Algorithm Theory SWAT continuing the tradition of SWAT 88 LNCS Vol 318 WADS 89 LNCS Vol 382 and SWAT 90 LNCS Vol 447. From 107 papers submitted 37 were selected for presentation at the workshop. In addition there were 5 invited presentations *Parallelization in Inference Systems* Bertram Fronhöfer, Graham

Wrightson, 1992-04-22 This volume contains the proceedings of an international workshop on parallelism in inference systems held in Germany in December 1990. The topic of the workshop is still rather young and several papers in the book are overview articles intended to provide a first orientation toward some of the more intensively investigated subtopics. The main part of the book is a compilation of research papers on parallelization in special domains of inference such as rewriting, automatic reasoning, logic programming and connectionist inference. Appended to the book is a collection of short project summaries received in response to a worldwide email call. The book is intended primarily for researchers working on inference systems who are interested in parallelizing their systems. *Discrete Algorithms* Annual ACM-SIAM Symposium on Discrete Algorithms, 1991-01-01 This proceedings is designed for computer scientists, engineers and mathematicians interested in the use, design and analysis of algorithms with special emphasis on questions of efficiency. *Proceedings of the Seventeenth Annual ACM-SIAM Symposium on Discrete Algorithms* SIAM Activity Group on Discrete

Mathematics, Association for Computing Machinery, Society for Industrial and Applied Mathematics, 2006-01-01 Symposium held in Miami, Florida, January 22-24, 2006. This symposium is jointly sponsored by the ACM Special Interest Group on Algorithms and Computation Theory and the SIAM Activity Group on Discrete Mathematics. Contents, Preface
