Legends of Prague Petr Berka, 2020 Framing Jewish Culture Simon J. Bronner, 2014-01-01 Modernity offers people choices about who they want to be and how they want to appear to others The way in which Jews choose to frame their identity establishes the dynamic of their social relations with other Jews and non-Jews a dynamic complicated by how non-Jews position the boundaries around what and who they define as Jewish This book uncovers these processes historically as well as in contemporary behavior and finds explanations for the various manifestations in feeling and action of being Jewish Boundaries and borders raise fundamental questions about the difference between Jews and non-Jews At root the question is how Jewish is understood in social situations where people recognize or construct boundaries between their own identity and those of others The question is important because this is by definition the point at which the lines of demarcation between Jews and non-Jews and between different groupings of Jews are negotiated Collectively the contributors to the book expand our understanding of the social dynamics of framing Jewish identity The book opens with an introduction that locates the issues

raised by the contributors in terms of the scholarly traditions from which they have evolved Part I presents four essays dealing with the construction and maintenance of boundaries two by scholars showing how boundaries come to be etched on an ethnic landscape and two by activists who question and adjust distinctions among neighbors Part II focuses on expressive means of conveying identity and memory while in Part III the discussion turns to museum exhibitions and festive performances as locations for the negotiation of identity in the public sphere A lively discussion forum concludes the book with a consideration of the paradoxes of Jewish heritage revival in Poland and the perception of that revival by Jews and non Jews    *A Companion to Clare of Assisi* Joan Mueller,2010 Clare of Assisi Life Writings and Spirituality examines Clare not merely as an obedient footnote to the friars but as a Franciscan founder in her own right who kept primitive Franciscan ideals alive into the middle of the thirteenth century and transposed them into a woman s key Bringing together the best of international research the text examines Clare s importance within the early Franciscan milieu and her contribution to the thirteenth century women s movement It studies the radicalism of Clare s Franciscan choice her life within the Monastery of San Damiano her politicking with Agnes of Prague for the privilege of poverty and her uniqueness among other women in Gregory IX s Damianite ordo Following this historical study are critical translations and literary analyses of Clare s four letters to Agnes of Prague as well as a new translation and commentary on Clare s *Forma Vitae*
