**Ethics Management for Public and Nonprofit Managers** Donald C. Menzel, 2016-06-10 This practical book is dedicated to building ethical organizations. It has been written for college students preparing for careers in public service as well as for elected and appointed officials, administrators and career public servants in the United States and elsewhere. Concise and comprehensive, Ethics Management for Public and Nonprofit Managers takes a managerial ethics approach to building and leading ethical public organizations. It includes a discussion of the U.S. constitutional and administrative environment in which officials carry out their duties, descriptions and assessments of the tools available to elected and appointed officials who are committed to building ethical organizations, an overview of legislative and administrative measures taken by Congress, presidents, the judiciary and the fifty states to foster ethical governance, unique coverage of ethics management around the world with a focus on the U.S., Europe and Asia, and hands-on skill building exercises with active learning opportunities that conclude each chapter. This third edition includes a new chapter on achieving ethical competence exploring a wide range of ethical issues that confront public and nonprofit managers in their efforts to lead and build organizations of integrity. Examples and cases from both the public and the nonprofit sectors are incorporated throughout the third edition so that the book acts as a kind of field guide for ethical

behavior with descriptions and assessments of the tools available to elected and appointed officials at every level  
Accompanying the third edition text is a series of exercises that build ethical competence skills asking the reader to judge the ethical competence of key actors in cases drawn from recent headlines    **National Directory of Nonprofit**
