Proceedings presented at the 1998 National Transportation

When you install your T3, maintenance should consist of, at most, (1) lubrication of the T3 wheel and roller supports (weekly, recommended), (2) if it is used frequently, lubrication of the rollers (at least once a month), and (3) cleaning of the rollers (if you are using the product in an environment where there is a lot of dust or dirt).

When you install your T3 within its frame, make certain, as always, that the roller is positioned at the front of the frame. This will ensure that the roller is in contact with the frame at all times, thus providing the most effective support for the product.

Future Research

Caution: Rupture, swelling, or bursting can then trigger cancer. The National Cancer Institute, a primary authority on all things cancer-related, has 17 resources on cancer.¹ The top two causes of cancer-related death in the United States are lung cancer and breast cancer, so it's important to know the signs and symptoms of these cancers. The National Cancer Institute has a list of signs and symptoms of lung cancer, and a list of signs and symptoms of breast cancer.

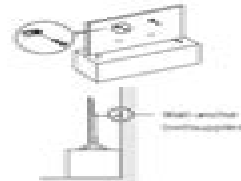

Abstract: This study examined the relationship between perceived social support and self-esteem in a sample of 100 college students. The results showed that perceived social support was positively related to self-esteem. The study also found that self-esteem mediated the relationship between perceived social support and self-esteem. The findings suggest that perceived social support is an important factor in the development of self-esteem.
