

ADVANCED PROVIDER ITLS STUDY GUIDE

To help students master the concepts of excellent trauma care, the following study guide has been developed. Please use your ITLS for Prehospital Care Providers, 7th ed. to answer the questions. Then, memorize the material!!!!!! Don't just "recon you know the answer!"

Chapter One

1. What is a "windshield survey" and when should it be done?

2. What are the three collisions that happen in any MVC?

3. When assessing a MVC, _____ is more important than mass in a collision.

4. The following injuries may be suspected in a head on collision

Rear end collision

5. What are the three important things to ask about in a fall?

6. State the five phases of a blast injury.

Chapter Two

7. What survey has the lowest priority in assessing the multitrauma patient?

8. What types of injuries would allow the medic to perform the primary, secondary and on-scene treatments?

9. What finding in the primary survey may justify it being interrupted?

1.

2.

3.

10. List the interventions(Fix it!) that may be performed on the "load and go" patient on the scene. (all nine!)

Advanced Provider Itls Study Guide Answer:

Macroeconomics (With Study Guide Cd-rom) Jagdish Handa, 2010-09-24 This book presents the stylized facts on the important variables output inflation money supply and interest rates etc of the macro economy and uses them to differentiate how well particular economic theories perform or fail to do so On the determination of aggregate demand this book presents two approaches the traditional IS LM analysis under the assumption that the money supply is exogenous because the central bank uses its monetary policy to control it and the emerging IS IRT analysis under the assumption that the interest rate is the exogenous monetary policy variable set by the central bank to manipulate aggregate demand in the economy The IS IRT analysis is important for the macro analyses of many economies yet is totally neglected in most textbooks on macroeconomics The chapter on Paradigms in Economics introduces students to the heritage of ideas in macroeconomics and the evolution of ideas and approaches over the last two centuries It also provides the justification for the simultaneous relevance of both Classical ideas and Keynesian ones The two growth theory chapters go beyond the Solow growth model to cover the broad evolution of growth from Malthus's theory to the present endogenous approaches and the link between money supply inflation and growth over very long periods
