DISCUSSION AND CONCLUSIONS—While comparisons are useful, generalizations are more difficult. Heterogeneity is more of a challenge for qualitative research than it is for quantitative research. The heterogeneity of the data is a strength, not a weakness. It is the richness of the data that allows the researcher to explore the complexity of the phenomenon. The researcher is not looking for a single answer, but rather for a range of possible answers. The researcher is not looking for a single answer, but rather for a range of possible answers. The researcher is not looking for a single answer, but rather for a range of possible answers.
