Economic Commission for Latin America and the Caribbean, 2007 This is the latest in a series of annual reports on recent trends and developments in relation to foreign direct investment (FDI) and investment strategies in Latin America and the Caribbean region. The main message of this year's report is that active and integrated FDI attraction policies linked to national development strategies are necessary to secure quality FDI. These lessons are drawn from policy practices in the more successful European and Asian countries which contrast with the more passive and disconnected FDI attraction policies evident in Latin America and the Caribbean. The 2006 report also contains chapters that analyse the experiences of two relatively small investor countries in Latin America and the Caribbean: the Republic of Korea and Portugal.
