## Germany Since World War II:

### World War II Memory and Contested Commemorations in Europe and Russia Jennifer A. Yoder,2024-01-01

Instrumentalization of the wartime past for political gain is the subject of this study of eleven World War II commemorations. Using a comparative conceptually original approach Yoder identifies the actors who manipulate memory surrounding wartime anniversaries such as the bombing of Dresden and ceremonies to honor fallen soldiers and fascist collaborators. The cases of memory contestation span three geographic regions Western Europe Eastern Europe and Russia recognizing that each developed distinctive interpretations of the war and different patterns of memory politics. This empirically rich study reveals the grievances that motivate memory challengers and their strategies for shaping the commemoration discourses and rituals. The memory challengers toolkit includes varieties of emotional manipulation subtle distortion revisionism and full scale denial. The study finds that while there are differences in context and strategy across cases and regions there are also areas of convergence. Moreover a memory challenge in one country can spill over into others with serious consequences for foreign relations. While *World War II Memory and Contested Commemorations in Europe and Russia* deals with debates and narratives about events in the last century its focus is on power persuasion and identity in the present. *Encyclopedia of Conflicts since World War II* James Ciment, Kenneth Hill, 2012-12-06 This copiously illustrated A-Z reference presents the most in depth information available about the various conflicts the world has endured local regional and international since World War II. Some 142 conflicts are discussed and analyzed. The *Encyclopedia of Conflict since World War II* with its coverage of all the countries of the world fills a critical need for clear comprehensive explanations of events not covered in such detail in any other reference source. Entries end with an extensive bibliography and the encyclopedia includes maps chronologies and a general bibliography as well as an index designed to make the reader understand the correlation and relationships between individual conflicts. *With Courage: The U.S. Army Air Forces in World War II*, *Structural Changes in West German Agriculture* Elfriede Anne Krause, 1972 *Hearings* United States.
