Sullivan, 1997 On June 6 1944 the Allies launched Operation Overlord the largest most hazardous amphibious assault in history The objective establishment of a lodgment area in Normandy from which the Allies could strike at the heart of Germany and destroy the German armed forces Air supremacy over northwest Europe was an absolute prerequisite for the success of the invasion and to achieve it the U S Army Air Forces launched two campaigns aimed at destroying the Germans transportation advantages in the area In the months and days leading up to the assault the Army Air Forces ceaselessly bombed rail centers rendering most of the railways in northern France and Belgium unusable Once the actual invasion was underway the Allies shifted to an interdiction campaign using precise air attacks on critical transportation installations near the battlefield to neutralize Germany's efforts to resupply and reinforce their troops This work makes use of many wartime records that had remained classified until recently **Industrial Management**, 1922 **Planning & Zoning News**, 1995 Management Education Robert R. Locke, 1998 Drawn from a 20th century time frame these readings about management education cover a complexity of subjects The key event American managerial capitalism's rise to global hegemony occurred at mid century it focused the world's attention on American management education That story is told in numerous articles about the revolution in business education within the USA about the propagation of American managerial knowhow and its reception abroad But the readings also cover alternate forms of management education rooted in quite different capitalist systems of enterprise governance with emphasis especially on a German tradition that rivaled the American before 1940 and a Japanese that emerged internationally in the 1980s These readings relate not only how the alternative traditions in management education retained their vigor throughout the century but how those mid century predominant American views about management education are being challenged as the century ends in America itself *Government Reports Annual Index*
